EDITION 28

June 2023

We harness decades of family-business core values, alongside a deep passion for lighting design and creativity, in order to offer our customers the best decorative lighting solutions for interiors projects around the world.

We care about our customers, our colleagues and the projects that we are involved with and we seek to evolve continuously and improve all aspects of our operations, products and services.

As much as we are a business with huge history, we are committed to shaping a sustainable business for the future and we constantly strive to be our customers' first choice for lighting, whatever their ambitions may be.

# A FAMILY BUSINESS *with a dynamic history*

Our recent 75th anniversary was a milestone that all employees at Chelsom are incredibly proud of.

Three generations of the Chelsom family have led our business since its inception in 1947. Reg and Kay Chelsom started the business together and quickly evolved the company from retail roots into a manufacturing and distribution operation. Since the mid-1970s, their son Robert Chelsom has pioneered change, growing the business extensively, as it rapidly became more design-led and focussed on the contract and project interiors marketplace. Soon Chelsom were winning hotel projects with many of the UK's leading hotel groups and Chelsom product was being specified by the finest interior designers and architects. In 2006, Robert's son, Will Chelsom, joined the business and much of his focus was on global expansion and promoting the brand across Europe, the Middle East and USA. Will took Chelsom into the Cruise Ship sector, where we are now considered to be one of the leading designers, manufacturers and suppliers of decorative lighting.

Chelsom began life as The Golden Age in 1947.

Reg Chelsom, Founder of Chelsom | Robert Chelsom, Chairman | Will Chelsom, Managing Director

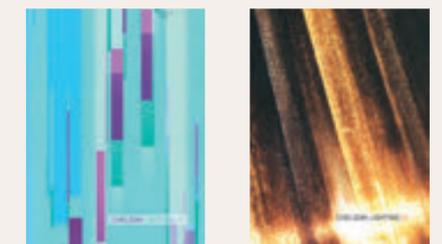

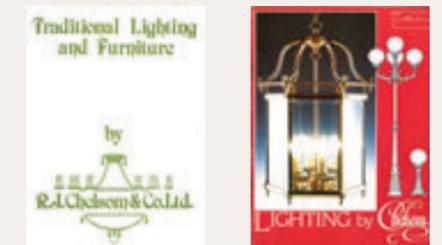

Today, with Robert as Chairman and Will as Managing Director, we harness decades of family business core values whilst thriving on a global scale. In the last six years, Chelsom has won two Queen's Awards for Enterprise in International Trade as well as a Red Dot Award for outstanding product design and we have been involved in an enviable portfolio of esteemed projects across multiple continents and sectors.

Our respected history ensures that our customers trust us to deliver their projects successfully and our longstanding relationships in the industry allow us to forge formidable strategic partnerships.

## CATALOGUES THROUGH THE DECADES

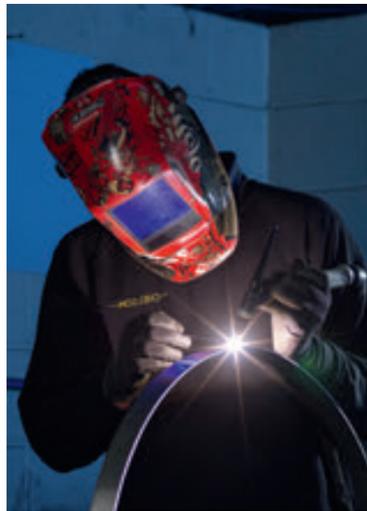

# With DECADES OF EXPERIENCE, *we ensure that CUSTOMER SERVICE is at our CORE*

We offer a fully flexible design, manufacturing, project management and delivery service in the knowledge that our prestigious customers demand the very best from their suppliers.

Chelsom's infrastructure allows us to service complex projects around the world with design, production, logistics and customer service all managed by our expert teams at our 50,000 sq. ft. headquarters in the North of England. Our production facility operates at the highest quality level whilst all UK and overseas sub-contractors are managed by our own expert sourcing and engineering teams. Thanks to a substantial warehousing footprint, we are able to carry a uniquely large stock holding, giving customers immediate access to high volumes of standard Chelsom products and components.

### Our Company Values

**RELIABLE**  
We take pride in our 75-year-old family business...it's why people trust us.

**PROGRESSIVE**  
We are forward thinking, innovative and embrace change in everything we do.

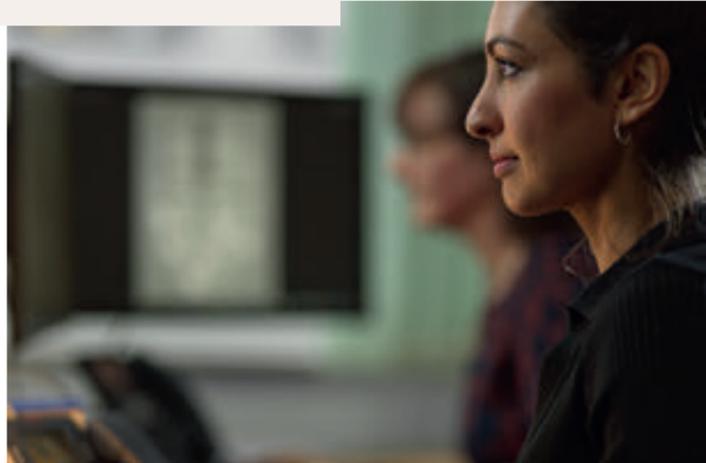

**CARING**  
We are compassionate and empathetic in supporting the needs of our customers and colleagues.

**CREATIVE**  
Everything we do starts with design... it's in our DNA.

**FLEXIBLE**  
We are immensely agile, delivering the best possible results to satisfy every customer ambition.

**SUSTAINABLE**  
We care about the environment and constantly strive to reduce our impact on it.

**PASSIONATE**  
We are committed to shaping a business for the future.

## PROJECT MANAGEMENT

By combining proficient project management skills with industry knowledge, we ensure that all projects are executed effectively from design concept stage through to CAD realisation, prototyping, tendering, purchasing, production, delivery and, where required, installation.

*We have over  
75 years' experience  
of manufacturing  
high quality  
decorative lighting.*

By offering a first class level of service we are able to keep up with the fast pace and challenging demands of the global contract industry.

Blending lean and practical production techniques, we create products for both our standard in-house collections as well as bespoke items. Our engineering and production teams in UK and China focus heavily on quality management and our skills and experience allow us to deliver lighting products using a variety of materials and finishes for all applications at suitable prices.

# BRITISH DESIGN

*since 1947*

—  
Good product design is at the forefront of everything we do at Chelsom.

We appreciate that in order to stand out in our global marketplace, we must constantly innovate with design. Led by Robert and Will Chelsom, our UK based in-house design team continuously strives to redefine our lighting collections by reacting to the ever-changing demands and trends that exist within the global hospitality, marine and residential interiors sectors.

Our product design is not limited to aesthetics and incorporates function, durability, the latest technology, and value engineering.

The Chelsom design ethos is reflected in these catalogue pages and all custom and bespoke design concepts are welcomed.

Copyright 2023 Chelsom Ltd

# MANUFACTURING IN BRITAIN *for* *both standard and* BESPOKE DESIGNS

We have spent decades as a leading supplier of British designed lighting to projects around the world and work hard to ensure that we offer only the very best quality manufacturing.

We are especially proud of our home-grown manufacturing capabilities in the UK. From our headquarters in the North of England and through various local sub-contractors, we have a diverse and highly skilled team of engineers that help bring many of our design concepts to life.

We are delighted to be a member of MADE IN BRITAIN, an official mark that binds Chelsom to an incredible British manufacturing community. Throughout the catalogue, the MADE IN BRITAIN mark identifies all UK manufactured products, whilst all bespoke designs can be considered for UK production.

## LE MÉRIDIEN

# At Chelsom we do not underestimate the **IMPACT** that our OPERATIONS HAVE ON THE ENVIRONMENT

Like many businesses, we use energy, we manufacture, we deliver products and services, we travel, and we create waste. Everything has an impact.

However, at the heart of our overall business strategy, we are scrutinizing all areas of our organisation and striving to be more sustainable in everything we do. We are a family business with an illustrious history but we are always focused on the future where we look to evolve in a way that is kind to the environment and with limited impact on the planet.

As a responsible British business, we are already on our journey towards Carbon Net Zero and we have it embedded within our culture that we must champion sustainability at all levels. We are furthering our sustainability commitment by becoming Planet Mark certified through measuring and reducing our carbon footprint. A Planet Mark certification recognises continuous improvement, encourages action and builds an empowered community of like-minded individuals who make a world of difference.

Working with Planet Mark on our quest to Net Zero.

Our Environmental Committee, made up of 15 Sustainability Champions at Chelsom, meets every month to discuss all aspects of our sustainability drive and objectives. Within this team of dedicated individuals, we challenge the way we design product, source materials, fuel our vehicles and premises, package and send consignments and plenty more.

## Chelsom is linked with the following environmental initiatives:

Through its Net Zero Carbon programme, our official freight partner, Kuehne+Nagel, actively contribute to the reduction of CO2 in transport and logistics worldwide.

A charity working alongside rainforest communities to halt deforestation.

An educational charity building connections with people and the living world.

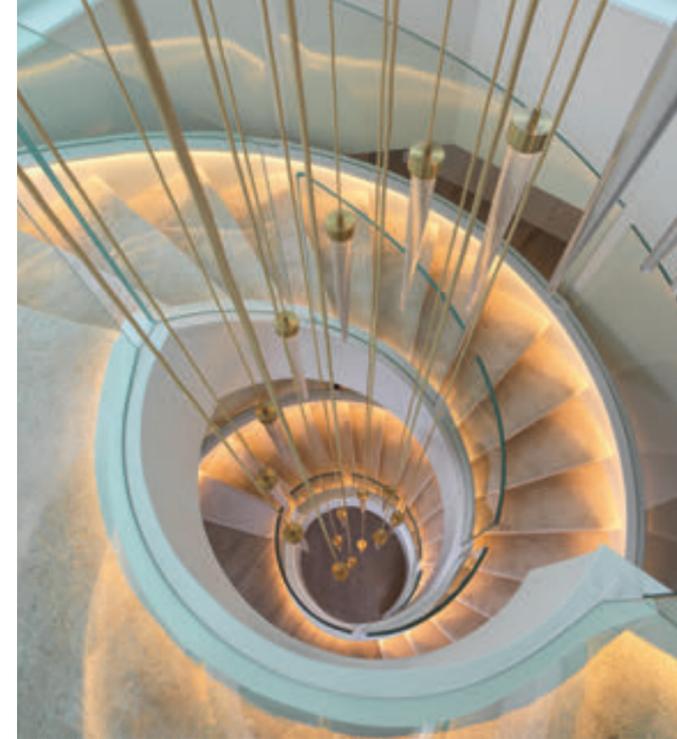

This catalogue is printed on carbon balanced paper.

*Quality is designed and engineered into every product we deliver at Chelsom. We ensure that our products are durable using the finest components and raw materials to facilitate long life expectancy...we want to deliver products that last.*

RICHMOND INTERNATIONAL

## *Our BESPOKE MANUFACTURING EXPERIENCE helps interior architects realise their design concepts*

Our fully flexible approach allows us to work collaboratively with some of the world’s leading interior and lighting designers.

Whether a one-off statement installation for public areas or a thousand-piece production run for hotel bedrooms or ship cabins, we will work hard to ensure that our client’s vision can become a reality. Our experience in our particular field allows us to offer advice and guidance, adding manufacturing know-how, technology and value engineering to any aesthetic brief.

# Our BESPOKE DESIGN PROCESS

At Chelsom, our highly skilled and experienced teams work across a number of disciplines in order to bring our clients' bespoke design visions to life.

## DESIGN & DEVELOPMENT

Once the design intention is fully understood, our product designers work to produce sketches, 3D technical drawings, full colour renders as well as 3D print models to give full confidence to our customers.

## PROTOTYPING

Whether working to specific hotel Mock Up Room deadlines or simply putting forward prototype parts for client review, our highly skilled sampling engineers understand the importance of the prototyping process for all bespoke projects.

## MANUFACTURING

All of our manufacturing systems are carefully evaluated and overseen by our operations teams so that each bespoke design goes through a unique and tailored production and quality control process.

## DELIVERY & INSTALLATION

On-time deliveries are paramount to the success of a bespoke project. Our specialist despatch and logistics teams create customised solutions to suit any client brief.

# LEADING LIGHTING SUPPLY PARTNER *to the* HOSPITALITY MARKET WORLDWIDE

Our lighting collections are designed specifically with hotel interiors in mind.

To create the perfect hotel lighting collection, we understand there is a need for product functionality and durability alongside great aesthetics. Not only that, we know that there have to be significant levels of flexibility to service this challenging marketplace as lighting products often have to conform to different international regulations, meet certain low energy requirements and be compatible with complex hotel guestroom control systems.

## CANOPY

## COLLABORATION

We have longstanding deep relationships with hotel operators, interior designers, FF&E procurement companies and contractors all over the world. We collaborate with and service these key customers across the hotel industry, working at all price points and to all design briefs. By truly understanding lead time requirements, budget constraints and having wide experience in onsite engineering and installation, at Chelsom we truly are experts in this specialist field.

# BRINGING SUPERIOR VALUE to PRICE SENSITIVE PROJECTS AROUND THE WORLD

True to Chelsom's core principles, we believe that quality and design should not be compromised because of budget.

The ethos behind Studio C is one of enhanced value. We strive to offer the best possible products and services at the most competitive prices. Studio C is not just a range of products, it is a commitment by Chelsom to ensure that our clients are rewarded with brilliant lighting solutions at everyday prices.

The Studio C label indicates products from the Chelsom collection that showcase extraordinary levels of value. Considered design detail, high quality finishing, the finest materials and highly engineered manufacturing all combine to create product ranges that are affordable and suitable for all budgets.

Beyond our standard collection, we can show that Bespoke manufacturing does not need to be expensive or complicated. We source materials and engineer products to hit a budget set by our customers, allowing them to customise their product needs at price points that work for their projects.

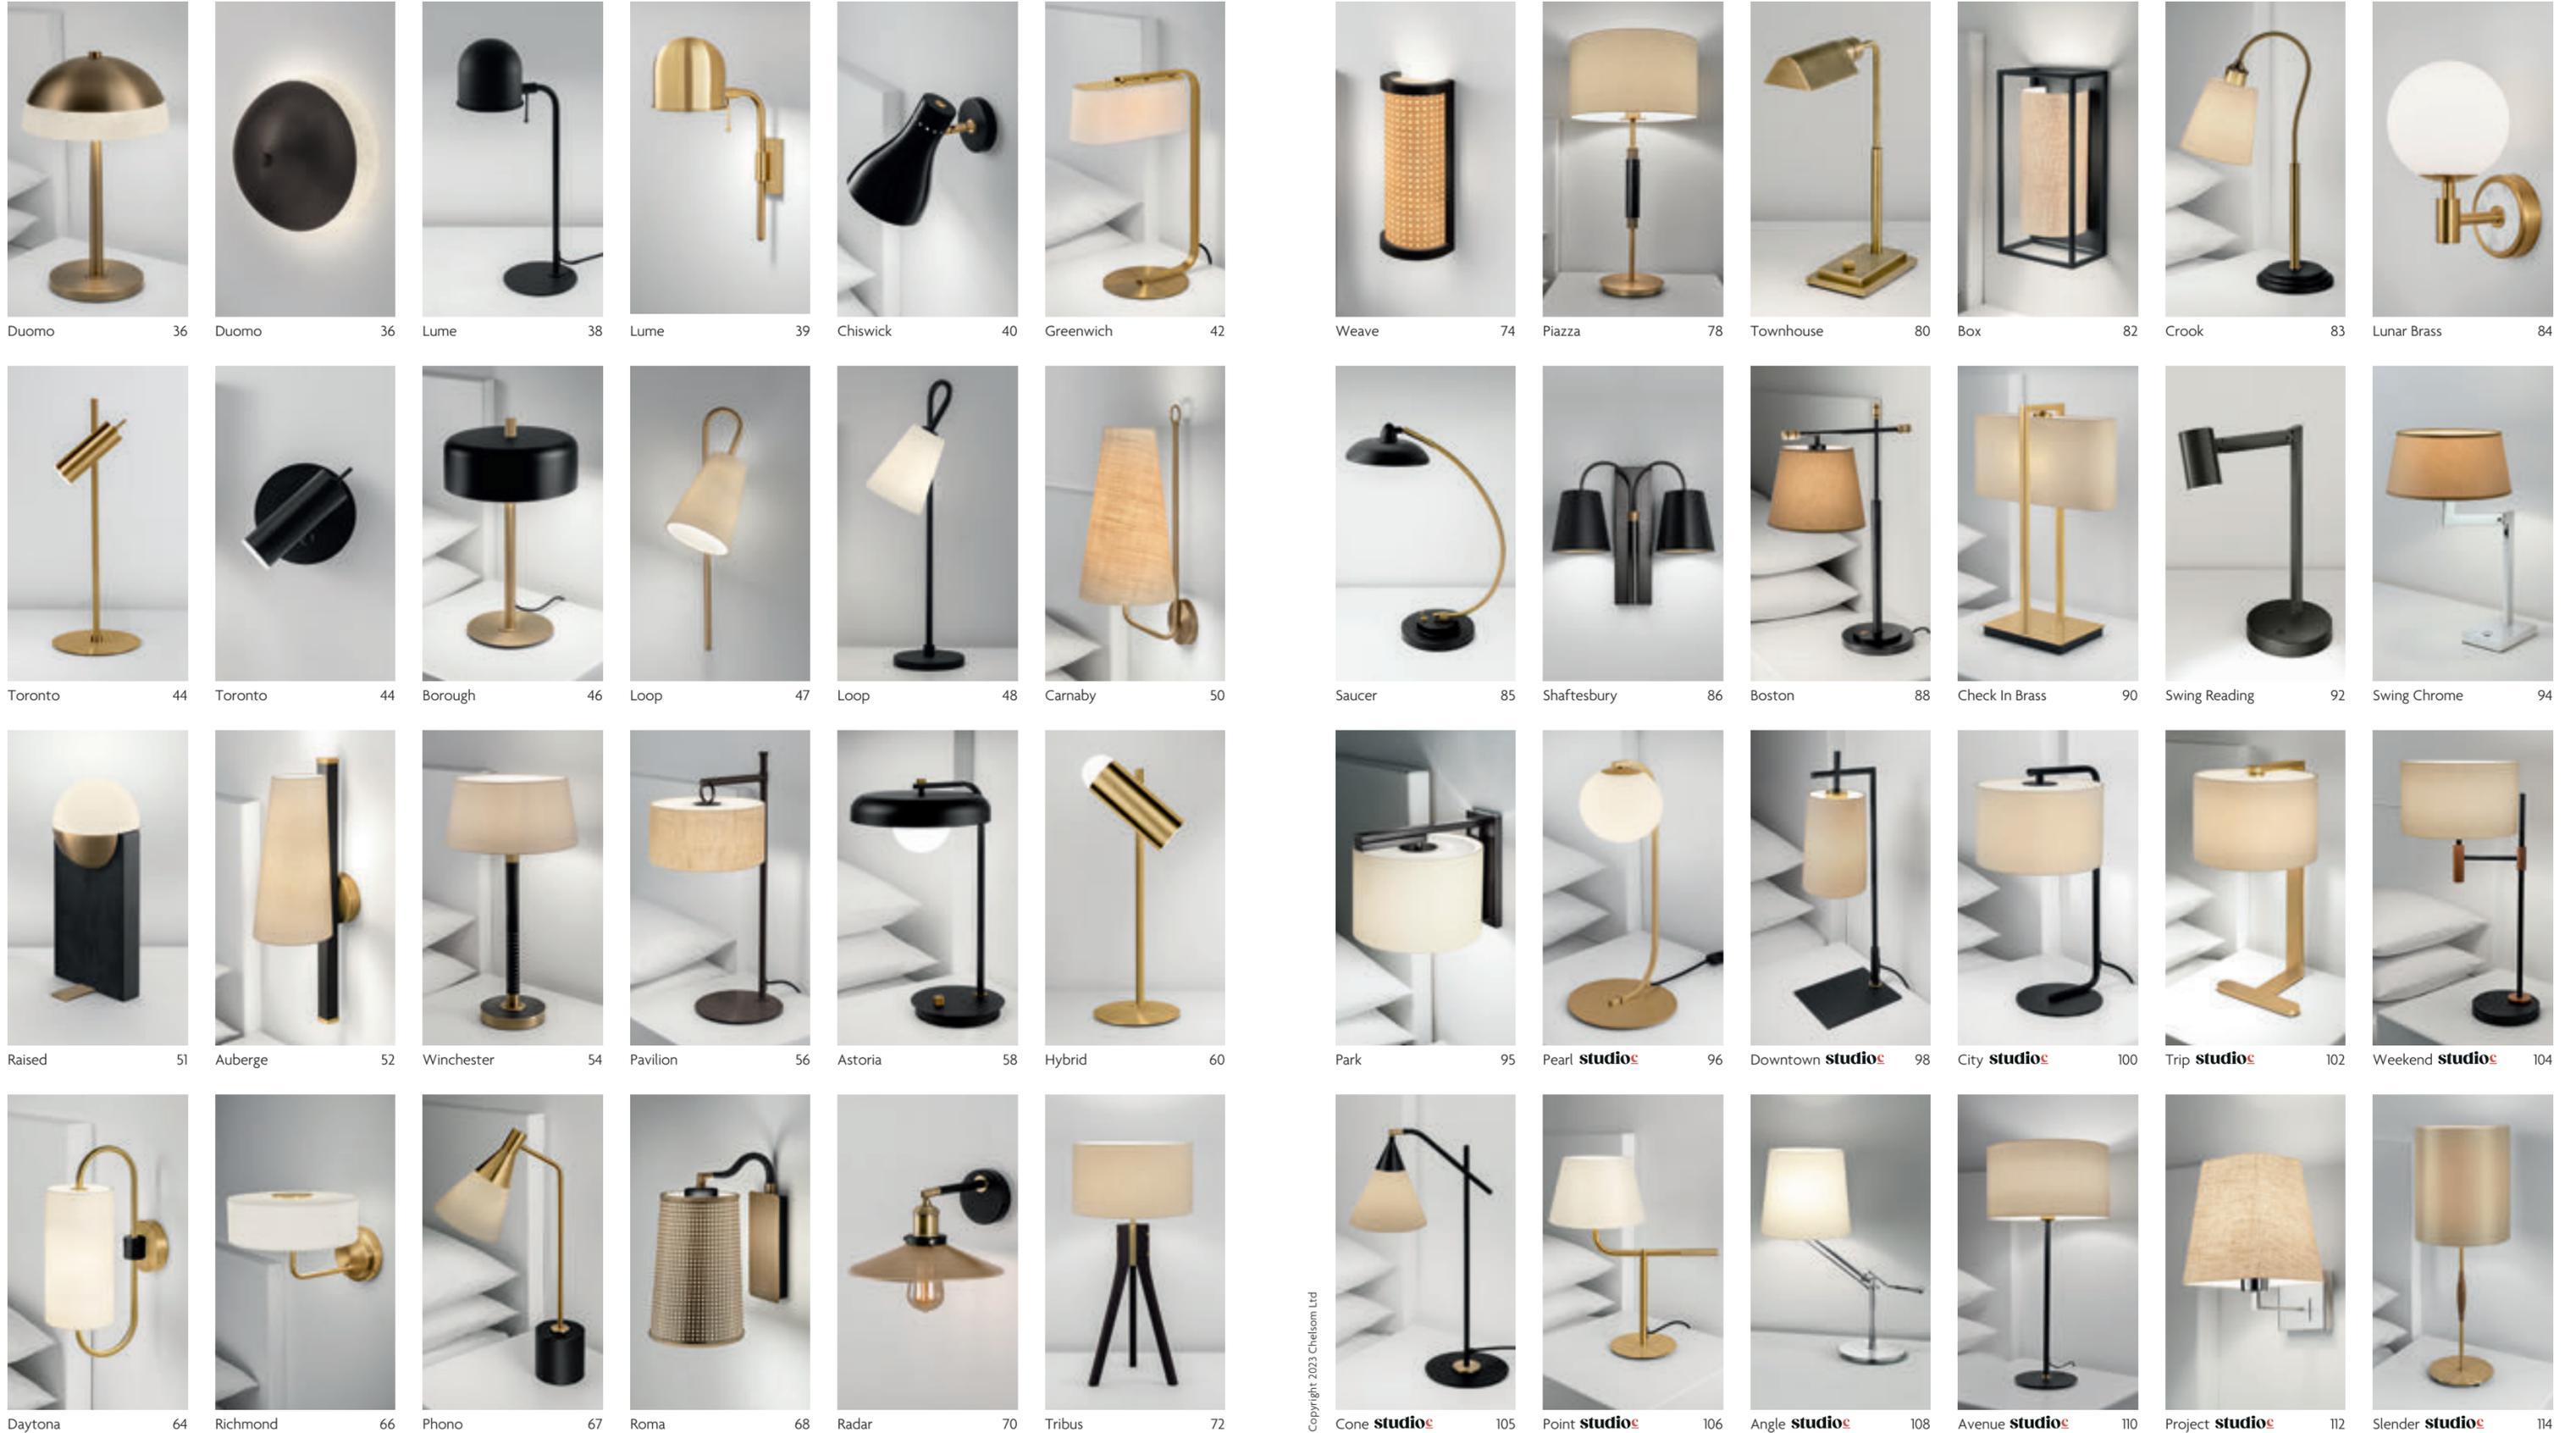

Having worked with longstanding clients such as Travelodge, Center Parcs and Holiday Inn Express we can create well designed, premium quality and superb value lighting products and services.

# COLLECTIONS

Copyright 2023 Chelsom Ltd

# DUOMO

**Features:** Both table lamp and wall light feature a beautiful metal dome which nestles on a faux alabaster inner dome. The table lamps have tapered columns and emit ambient light through the faux alabaster whilst also spilling downlight onto the surface below. The wall light diffuses a halo effect onto the wall and is perfect for use in corridors and public spaces.

**Materials:**  
Steel and acrylic.

**Finishes:**  
Golden Bronze (GB) or Black Bronze (BB) with faux alabaster.

Copyright © 2023 Chelsom Ltd

# LUME

**Features:** Domed metal shades swivel left to right using a handle to position for convenient task lighting. Elegant flat bases on the table and floor lamp support upright columns which curve 90° into the domes. The wall light also swings left to right making it ideal for bedside use. All metal shades are finished with Opal acrylic diffusers creating an even ambient light.

**Materials:**  
Steel with  
Opal acrylic  
diffuser.

**Finishes:**  
Satin Black (BL) or  
Brushed Brass (BRB) with  
Opal acrylic diffuser.

Copyright 2023 Chelsom Ltd

# CHISWICK

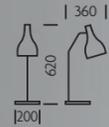

**Features:** An iconic range of task lighting featuring fully adjustable Gloss Black metal shades secured to the arms with detailed Brushed Brass swivel joint brackets. There is a Brushed Brass metal push switch recessed into the top of the shades, which have heat escape holes to reflect the retro style.

**Material:**  
Steel.

**Finish:**  
Satin Black with Gloss Black shade and Brushed Brass accents.

# GREENWICH

**Features:** A unique range of guestroom lighting featuring tapered D-ended rectangular shades which are enclosed at the top with metal reflector plates. The rectangular section, heavy supports are mounted onto slim circular bases.

**Material:**  
Steel.

**Finishes:**  
Black Bronze (BB) or  
Brushed Brass (BRB).

Copyright 2023 Chelsom Ltd

# TORONTO

**Features:** A simple yet beautifully designed collection of hotel guestroom lighting featuring a fully adjustable cylinder head with a slotted detail in the top and a knurled handle for directing the light. There is an Opal acrylic diffuser in the bottom of the head which avoids direct glare and the rim of the diffuser give an ambient halo of indirect light. Table and floor lamps have black silk-covered cable and wall lights a metal push switch.

**Materials:** Steel and acrylic.

**Finishes:** Brushed Brass (BRB), Brushed Nickel (BN) or Satin Black (BL).

Copyright 2023 Chelsom Ltd

# BOROUGH

**Features:** Retro metal dish-shaped shades spill pools of light downwards. The Golden Bronze columns appear to pass through the Satin Black metal shades and rest on flat weighted bases.

**Material:**  
Steel.

**Finish:** Golden Bronze with Satin Black (GB/BL) and metal shade interior is white.

BG/5/TL/GB/BL

BG/5/FS/GB/BL

# LOOP

Copyright © 2023 Chelsom Ltd

# LOOP

**Features:** Elegantly tall vertical columns loop and cross over at the top to hold fabric shades. The table and wall lights are left and right-handed (L or R within model number) so that the shades can point towards the bed, making them perfect for guestroom use. The floor lamp can be used for reading next to a sofa or armchair.

**Material:**  
Steel.

**Finishes:**  
Golden Bronze (GB) or Satin Black (BL).

**Shades:**  
Other fabric options available for these bespoke shades.

Copyright 2023 Chelsom Ltd

# CARNABY

**Features:** A retro 1960s style floor lamp with tripod base, a ring detail at the top and a tall cone fabric shade. The matching wall light has the same design details. The two available finishes make the products ideal for hotel guestroom or home.

**Material:**  
Steel.

**Finishes:**  
Golden Bronze (GB)  
or Satin Black (BL).

# RAISED

**Features:** Opal glass globes are encased within Golden Bronze sconces which interlock with solid Ebony wooden rectangular sections. The table lamp sits upon a flat Golden Bronze base for enhanced stability. The wall light has concealed wall fixings.

**Materials:**  
Wood, steel  
and glass.

**Finish:**  
Ebony with Golden  
Bronze (EB/GB) and  
matt Opal Glass.

# AUBERGE

**Features:** Square wooden columns with top and bottom Brushed Brass metal caps support asymmetric long tapered fabric shades which sit close to the uprights. Table and floor lamps stand on shallow circular Ebony wooden bases. The LED reading light on the combination wall light has an integral black push switch.

**Materials:**  
Wood and steel.

**Finish:**  
Ebony wood with  
Brushed Brass.

# WINCHESTER

**Features:** Substantial Ebony wooden columns have deep ribbed grooves to the lower section. Golden Bronze accents add rich highlights to these timeless designs, suitable for use in both modern and traditional interiors.

**Materials:**  
Wood and steel.

**Finish:**  
Ebony with Golden Bronze (EB/GB).

Copyright 2023 Chelsom Ltd

# PAVILION

**Features:** A refined and robust range of guestroom lighting featuring optional Hemp fabric shades with standard Opal acrylic top diffusers. Shades are suspended from a metal ring supported by arms which have a junction detail as they meet the upright columns. Table and floor lamps stand on shallow circular bases.

**Materials:**  
Steel and acrylic.

**Finish:**  
Black Bronze (BB).

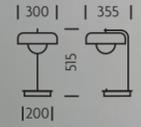

# ASTORIA

**Features:** Shallow domed metal shades cover matt Opal blown glass globes which are threaded for secure fixing. Table lamps have rotary dimmer switches.

**Materials:**  
Steel and glass.

**Finishes:**  
Brushed Brass (BRB), or Satin Black with Brushed Brass (BL/BRB). Matt Opal glass. Metal shade interiors are white.

# HYBRID

# HYBRID

**Features:** A striking overscaled cylindrical head gives ambient room light through the matt Opal glass top dome and directional task light from below. Heads swivel right/left with a mechanical stop to prevent over rotation.

**Materials:** Steel and glass with acrylic diffuser.

**Finishes:** Brushed Brass (BRB), Brushed Nickel (BN), or Satin Black (BL).

Copyright 2023 Chelsom Ltd

# DAYTONA

**Features:** Tall cylinder fabric shades are seemingly held within a looped tubular frame. The frame passes through a chunky cylinder in contrasting Satin Black. Floor lamps have three lamps to spread light evenly. Shades have Opal acrylic top diffusers. **Floor lamps** are priced with and come complete with lamps as shown.

**Materials:**  
Steel with acrylic diffuser.

**Finishes:**  
Brushed Brass with Satin Black (BRB/BL) or Brushed Nickel with Satin Black (BN/BL).

**Shades:**  
Shades are bespoke for Daytona. Other fabrics available.

# RICHMOND

**Features:** Internal integral LED light sources allow very shallow shades for unique proportions and excellent diffused light distribution. The range is complete with off-white fabric shades secured on top with decorative grooved discs. Table and floor lamps include dimmer switches (wall light dimmable remotely).

**Materials:**  
Steel and fabric.

**Finish:**  
Brushed Brass (BRB).

# PIAZZA

**Features:** Chunky Ebony stained wooden sections combine with reeded tubing to feature in this elegant guestroom lighting design.

**Materials:**  
Steel and wood.

**Finish:**  
Golden Bronze with Ebony.

# TOWNHOUSE

**Features:** Rectangular stepped bases, tubular columns and triangular canopies give a timeless style. Upright columns swivel left/right and canopies rotate to give a full range of directional light. Desk and wall lights have knurled rotary dimmer switches. Canopies have internal polished metal reflectors.

**Material:**  
Steel.

**Finishes:**  
English Brass (EBR) or Black Bronze (BB).

Copyright 2023 Chelsom Ltd

# BOX

**Features:** Linear steel frames encase cylinder shades in Natural fabrics. Options without shade to take filament lamp only available to special order.

**Material:**  
Steel.

**Finish:**  
Textured Black.

**Shades:**  
A diffuser is fitted in the top of table lamp shade. Other fabrics available to special order.

# LUNAR Brass

**Features:** Heavy stone bases and backplates sit within curved metal surrounds and glass globes are secured with threaded metal rings to ensure safety and durability. Wall lights can be fitted as up or down lights.

**Materials:**  
Steel, stone and glass.

**Finish:**  
Brushed Brass (BRB) with Natural stone and matt Opal glass.

# SAUCER

**Features:** Shallow directional heads with Opal acrylic diffusers house warm white integral LED light. Wall and table lamps have integral toggle switches.

**Materials:**  
Steel with acrylic diffuser.

**Finish:**  
Satin Black with Brushed Brass (BL/BRB).

Copyright 2023 Chelsom Ltd

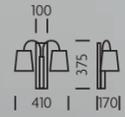

# SHAFTESBURY

**Features:** A double arm design with wall and table options. All models have a central knurled section and the table lamp is operated by a rotary dimmer switch.

**Material:**  
Steel.

**Finish:**  
Black Bronze with  
English Brass (BB/EBR).

# BOSTON

**Features:** Stepped bases (with colour co-ordinated push switches on table lamps) support crossed columns with decorative end turnings.

**Material:**  
Steel.

**Finish:**  
Black Bronze with English Brass (BB/EBR).

**Shades:**  
Other fabric options available for these bespoke shades.

# CHECK IN Brass

**Features:** Slim rounded corner rectangular shades are held within the rectangular metal framework of the double columns.

**Material:** Steel.

**Finish:** Brushed Brass (BRB) with black underbase.

**Shades:** Shades are bespoke for the Check In range. Fabric shown is Natural cottonette (NAT) with other fabrics to special order. Shades have integral top diffusers.

Copyright 2023 Chelsom Ltd

# SWING Reading

Features: Robust detailed hinges allow arms to swivel. Cylindrical heads with ventilation hole rotate to give directional reading light.

Material:  
Steel.

Finish:  
Black Bronze (BB).

Copyright 2023 Chelsom Ltd

# SWING Chrome

**Features:** Robust detailed hinges allow arms to swivel. Table and wall lights have metal push switches.

**Material:**  
Steel.

**Finish:**  
Polished Chrome (C).

**Shades:**  
See back of catalogue for full range of optional shades.

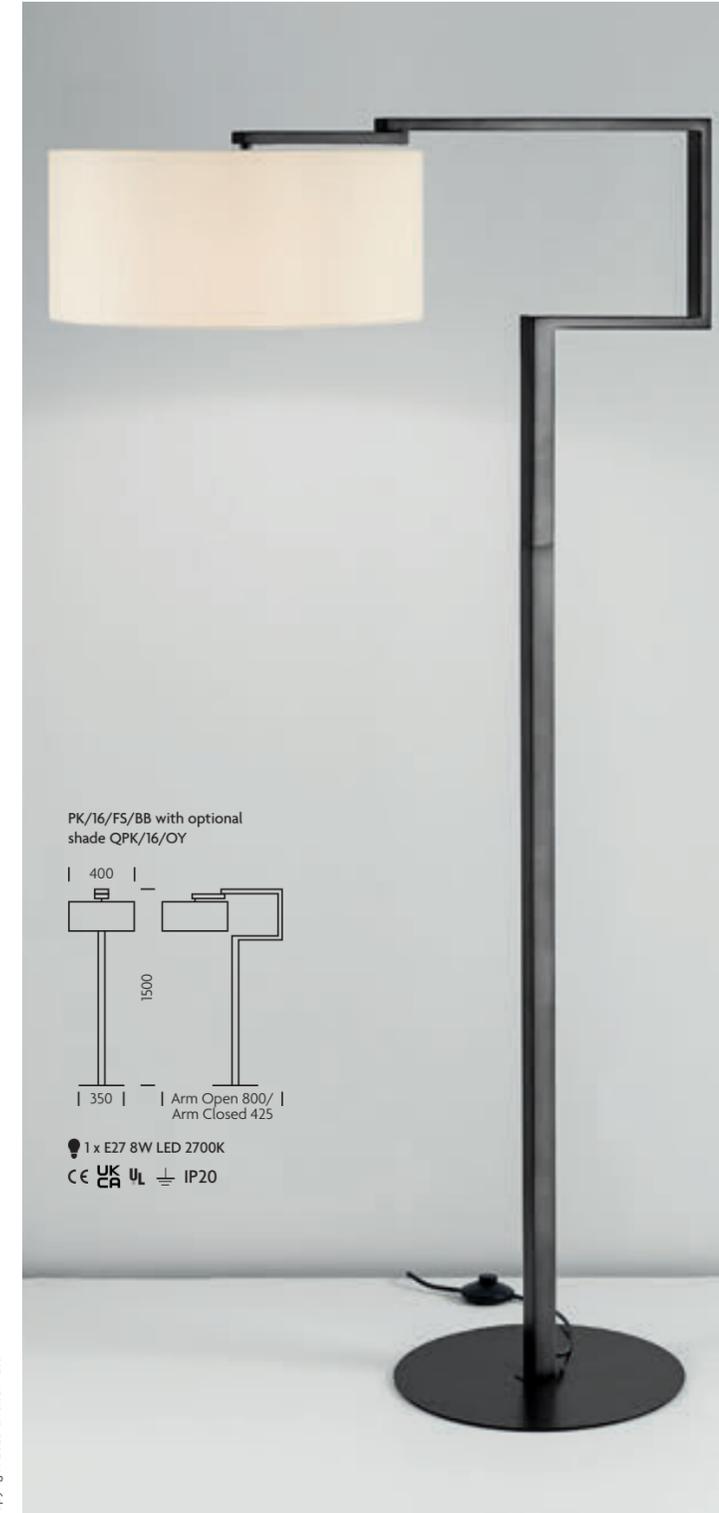

# PARK

**Features:** Sleek swivel arm action allows 270° rotation or shade can be 'parked' within the top framework. Shades have detailed Opal acrylic top diffuser. Neat when 'parked', the shades give a wide arc of light when extended. For floor and table, the cable exits above the slim flat bases.

**Materials:**  
Steel with acrylic diffuser.

**Finish:**  
Black Bronze (BB).

Copyright 2023 Chelsom Ltd

# PEARL

**Features:** Warm LED light is softly diffused through heavy Opal glasses which are threaded for secure attachment. Square section tubing contrasts with D-ended wall light backplates and round table lamp base. On PA/12/W1/LED/\*, the LED reading light has an integral switch. It is also available with an additional USB-C charging outlet to special order with a minimum quantity of 50 pieces.

**studio**

**Materials:**  
Steel and glass.

**Finishes:**  
Satin Black (BL) or  
Champagne Gold (CHG) with matt  
Opal glass.

Copyright 2023 Chelsom Ltd

# DOWNTOWN

**studio**  
— BY CHELSOM —

**Features:** Brushed Brass accents contrast with Satin Black metalwork and tapered shades are suspended giving good downlight. The table and floor lamps sit on heavy slim bases and the combination wall light has a directional switched LED reading light with integral driver in the backplate. Fabric shades are bespoke for this range - other fabrics available.

**Material:**  
Steel.

**Finish:**  
Satin Black with  
Brushed Brass.

# CITY

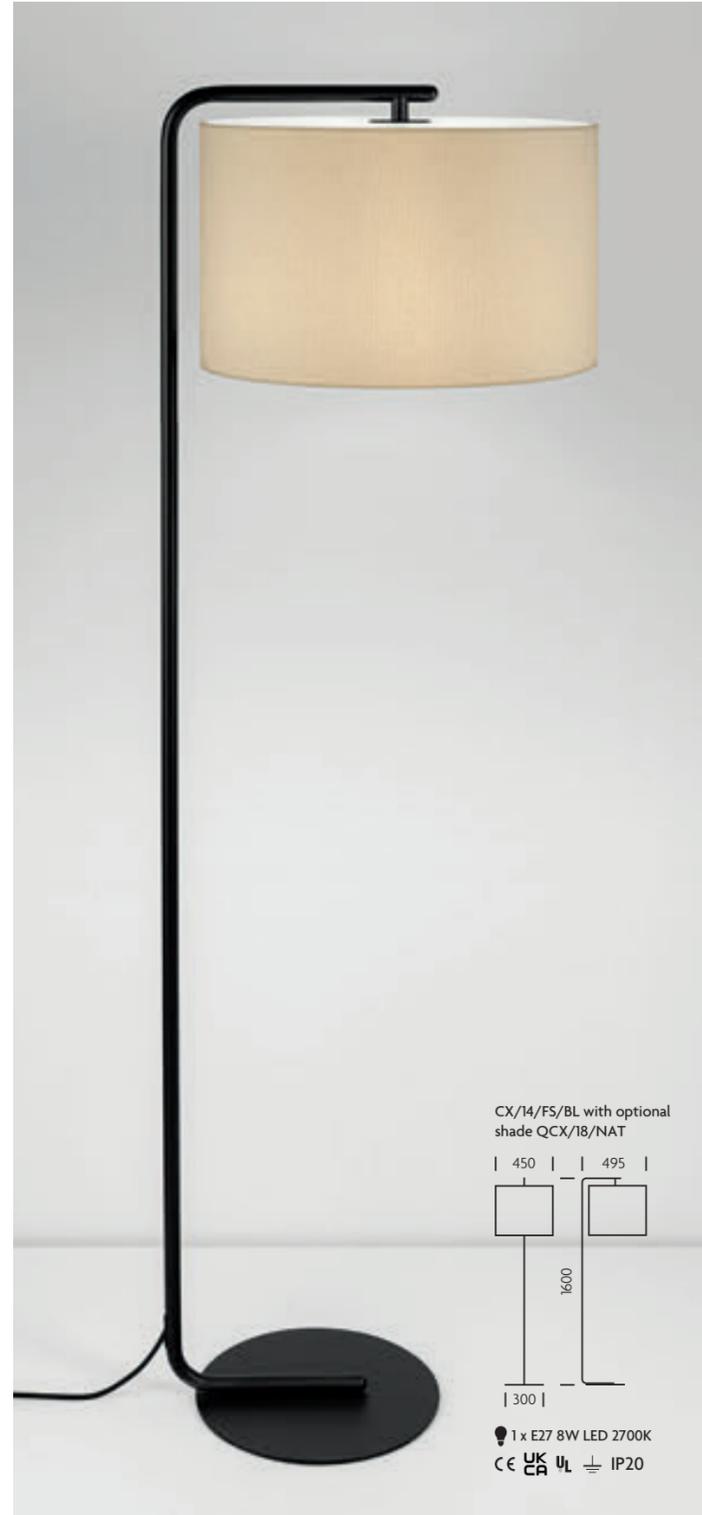

**Features:** An up-and-over arm configuration which suspends the shade at the top and runs across a slim base at the bottom. Tube ends have a rounded detail and fittings are complete with integral Opal acrylic top diffuser.

**studio**  
— BY CHELSOM —

**Materials:**  
Steel and acrylic diffuser.

**Finishes:**  
Brushed Brass (BRB),  
Brushed Nickel (BN)  
or Satin Black (BL).

**Shades:**  
Shades are bespoke for  
this range with other  
fabric options available.

# TRIP

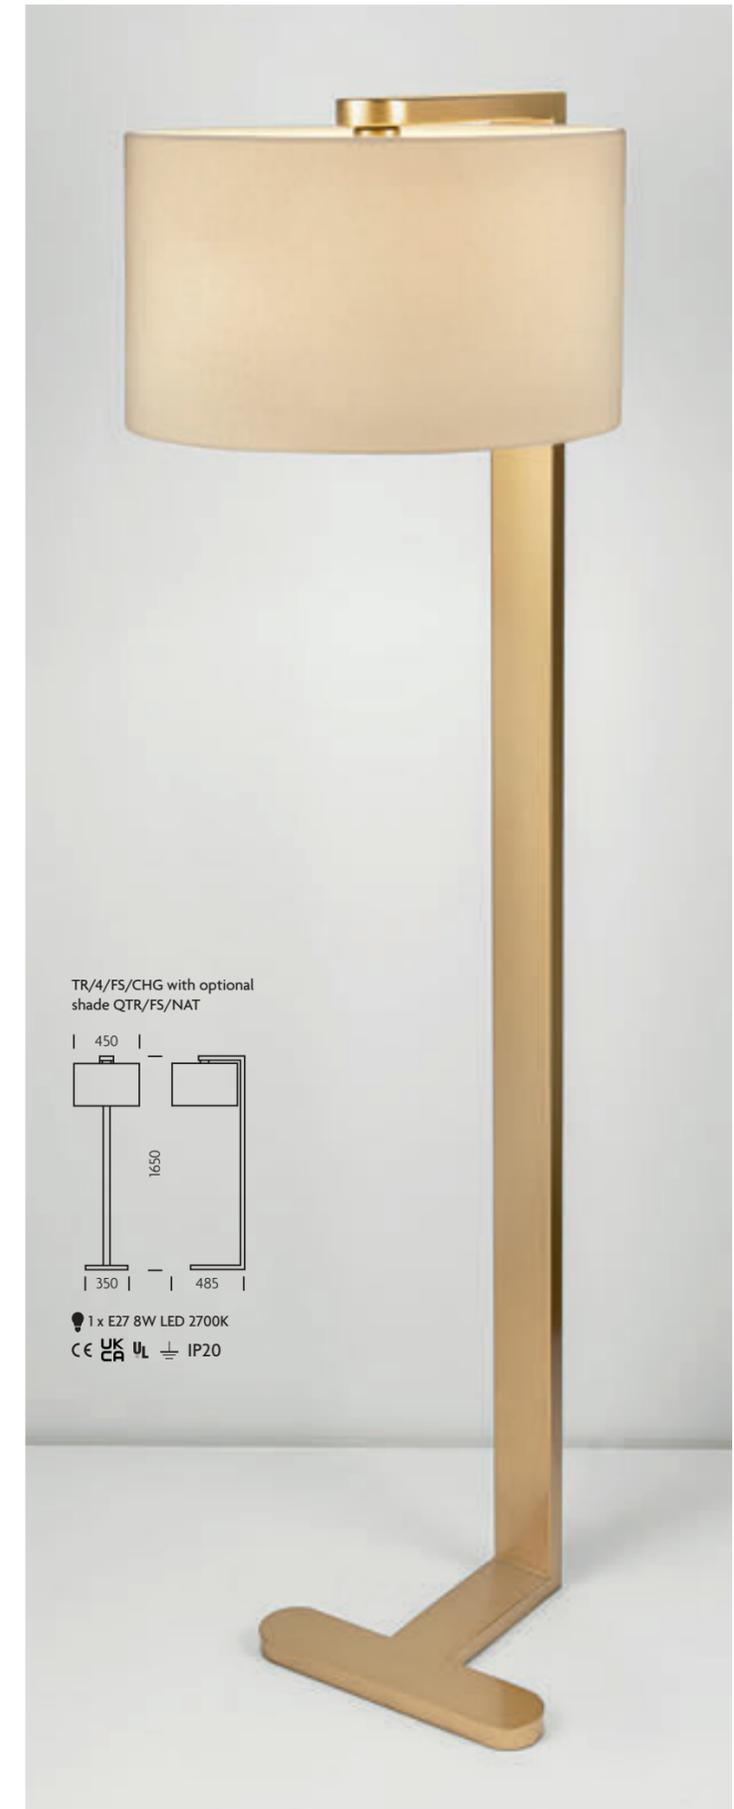

**Features:** TR/4/WI/LED/\* has an integral driver and two switches, one for the main light and one for the LED reading light. Different switching options are available to special order for minimum order quantities of 50 pieces.

**Material:**  
Steel.

**Finishes:**  
Satin Black (BL)  
or Champagne  
Gold (CHG).

**Shades:**  
Shades are bespoke for the Trip range and have integral top parchment diffusers. Other fabric options available - see back of catalogue.

**studio**  
— BY CHELSOM —

# WEEKEND

Features: Off centre columns for table and floor lamps sit on heavy circular bases and the range has contrasting Walnut wood sections.

# studioc

— BY CHELSOM —

**Materials:**  
Steel and wood.

**Finish:**  
Satin Black with Walnut.

# CONE

Features: The conical metal head runs seamlessly into the conical fabric shade and gives soft diffused downlight. All heads swivel up/down and left/right. Arm to column joint is fixed.

# studioc

# LED EYE

**Features:** A discreet LED bedside reading light which recesses into the headboard leaving it almost entirely flush to the surface. The unique lip feature at the bottom encourages guests to open the centre section and that automatically operates the light. The internal unit then swivels 80° left, right and 90° forwards to give a full range of warm directional reading light. Closing the unit then switches it off. The product comes with a LED driver for remote mounting. See page 120 for technical detail.

**Materials:**  
Steel and aluminium.

**Finishes:**  
Brushed Brass (BRB), Brushed Nickel (BN), Matt White (MW), or Satin Black (BL). See page 120 for custom combination finishes available with minimum quantities of 50 pieces.

# LED EYE

Illustrated below are examples of combination finishes available to special order for a minimum quantity of 50 pieces.

Wiring diagram including remote driver

# LED DOCK KNURL

**Features:** A warm white LED reading light is housed within a knurled cylinder head that swivels 90° left, right or forward. A docking switch activates the light source when the head is pulled forward. The product can be vertically or horizontally mounted. For dimensions and technical details, see page 125.

**Materials:**  
Steel and aluminium.

**Finishes:**  
Brushed Brass (BRB),  
Brushed Nickel (BN)  
or Satin Black (BL).

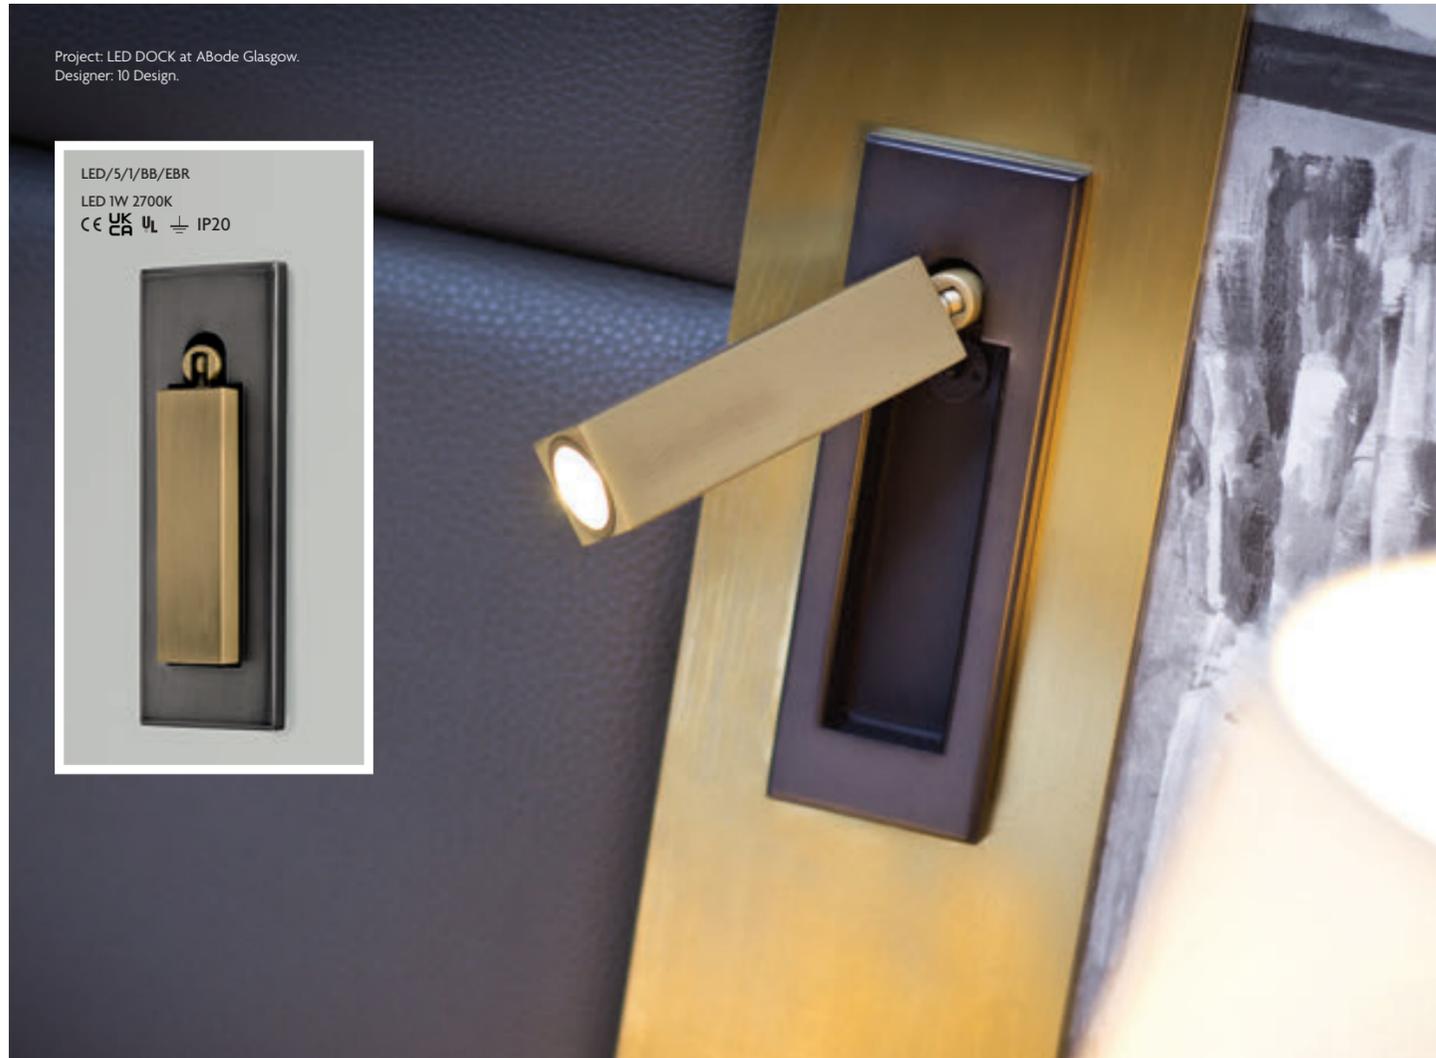

Copyright 2023 Chelsom Ltd

# LED DOCK

**Features:** A warm white LED reading light is housed within a rectangular or cylindrical head that swivels 90° left, right or forward and 'docks' into a semi recessed backplate, which can be vertically or horizontally mounted. Finishes, docking and push switch options plus installation information are shown on this and the following pages.

**Materials:**  
Steel and aluminium.

**Finishes:**  
Polished Chrome (C), Black Bronze (BB), Black Bronze with English Brass (BB/EBR), Brushed Nickel (BN), Golden Bronze (GB) and English Brass (EBR).

Copyright 2023 Chelsom Ltd

# LED DOCK

**Features:** See page 122. The Dock range can be offered to special order with an integral USB-C port fitted for minimum 50 pieces. Note: LED driver is integral but USB transformer is remote – see diagram below. For headboard mounting only.

**Materials:**  
Steel and aluminium.

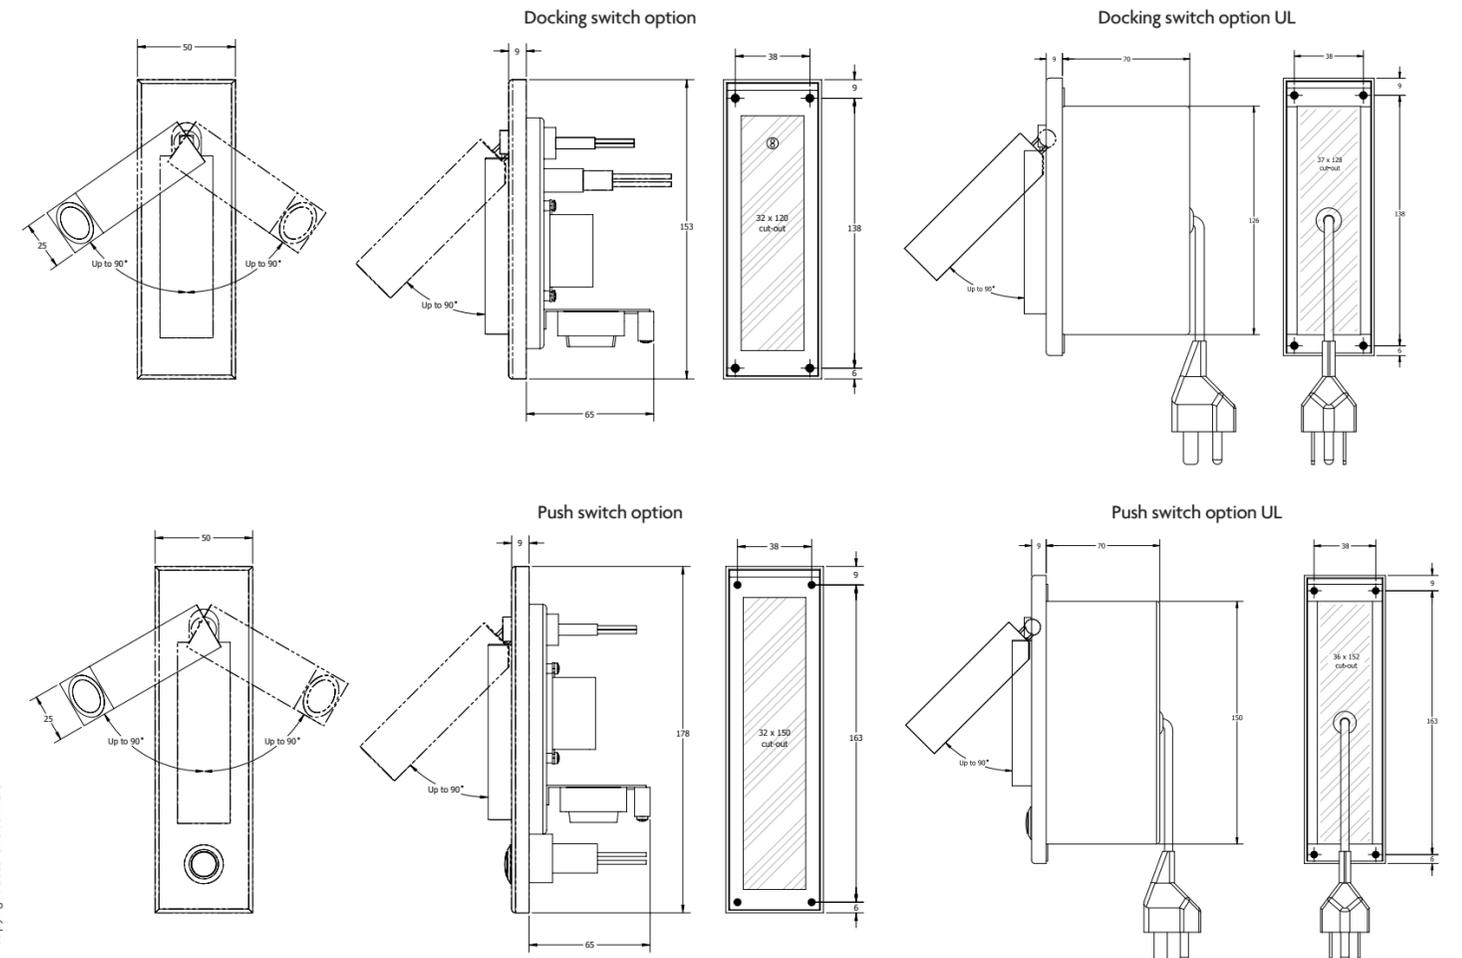

**Finishes:**  
Polished Chrome (C), Black Bronze (BB), Black Bronze with English Brass (BB/EBR), Brushed Nickel (BN), Golden Bronze (GB) and English Brass (EBR).

**Switching options:**

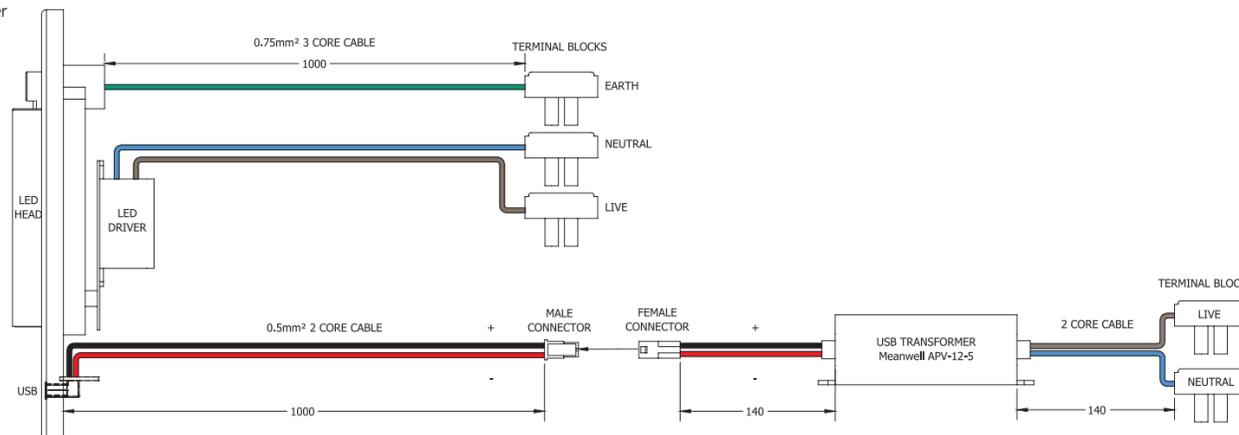

Available with automatic docking switch in the backplate recess or with shallow push switch in the base of the backplate (except USB-C version).

**Installation:**

For simple installation, headboards can be prepared incorporating cutouts and fixing holes as shown in the templates below. Units come complete with switch, LED driver and terminal block fitted to the back for ease of electrical installation. Once connections are made the internal backplate is screwed to the headboard recess and finally the front cover plate is fitted with one discrete locating screw at the bottom.

USB Remote Transformer for CE version. For UL version, please enquire.

Copyright 2023 Chelsom Ltd

# LED DOCK Combi

**Features:** Combination wall lights with docking switches for the LED heads housed in the backplates. The ambient room light sits within a fabric shade. Products are right and left handed for bedside use.

**Materials:**  
Steel and aluminium.

**Finishes:**  
Black Bronze with English Brass (BB/EBR), Satin Black (BL), or Brushed Nickel (BN).

**Shades:**  
Shades are bespoke for this range. Other fabric options available.

**Features:** Slender guestroom or cabin bedside wall light with main room illumination from within the fabric shade, an LED reading light and a USB-C charging port. The reading light has a docking switch, the main light a push switch. The USB-C port remains powered even when lights are switched off.

**Materials:**  
Steel and aluminium.

**Finish:**  
Black Bronze (BB).  
Other finishes available to special order for MOQ 50 pieces.

Copyright 2023 Chelsom Ltd

# LED KNURL

**Features:** The cylindrical heads have detailed knurling and a black on/off push switch. All four finishes are available with rectangular backbox housing an integral driver or with discreet round backplate with concealed fixings for remote driver location. Prices include integral or remote driver. An option with integral USB-C port and remote transformer is available for minimum quantity 50 pieces and for headboard mounting only.

**Material:**  
Steel.

**Finishes:**  
Black Bronze (BB),  
Brushed Nickel (BN),  
Golden Bronze (GB) or  
Brushed Brass (BRB).

Copyright 2023 Chelsom Ltd

# LED FOCUS

**studio**  
— BY CHELSOM —

**Features:** The cylindrical heads have a black on/off push switch. Rectangular backbox houses an integral driver or discreet round backplate has concealed fixings for remote driver. **Prices include integral or remote driver.** An option with integral USB-C port and **remote** transformer is available for minimum quantity 50 pieces and for headboard mounting only. Combination wall lights are for double or twin bed configurations with main light switched remotely (integral switching to special order for minimum 50 pieces).

**Material:**  
Steel.

**Finishes:**  
Black Bronze (BB), Brushed Nickel (BN), Brushed Brass (BRB), Satin Black (BL) or Polished Chrome (C).

Copyright 2023 Chelsom Ltd

# LED FLEXI

**Features:** LED bedside reading lights with cylindrical heads which have black on/off push switches. Flexi arms are robust 10mm diameter and tested for function and durability. Drivers can be remotely sited with LED/12 models or are integral in the backboxes for LED/13. Prices include integral or remote driver.

**studio**  
— BY CHELSOM —

**Material:**  
Steel.

**Finishes:**  
Brushed Brass (BRB), Brushed Nickel (BN) or Black Bronze (BB).

# LED READING

**Features:** A collection of reading lights with either a grooved cylindrical head or a tapered design, both with high quality focusing lenses. Prices include remote driver.

**studio**  
— BY CHELSOM —

**Material:**  
Steel.

**Finishes:**  
Brushed Nickel (BN), Satin Black (BL) or Polished Chrome (C).

# ROCK Desk Lamp

**Features:** Lamps feature heavy Natural stone bases. For DL/16/BB/EBR, shade swivels and adjusts. SW/40/TL/EBR/STONE has a robust detailed hinge allowing the arm to swivel and the head rotates to give directional reading light. Both models are suitable for bedside or desk use.

**Materials:** Steel and natural stone.

**Finishes:** English Brass with Natural stone for SW/40/TL/EBR/STONE and Black Bronze with English Brass and Natural stone for DL/16/BB/EBR.

Copyright 2023 Chelsom Ltd

# Desk HUB CAP

**Features:** Desk lamp has an integral LED light source and a colour co-ordinated push switch in base. Opal acrylic diffuser gives good diffused light.

**Materials:**  
Steel with acrylic diffuser.

**Finishes:**  
Black Bronze with English Brass (BB/EBR) or Polished Chrome (C).

# BIBLIO

**Features:** A stepped base, deeply grooved directional handle and decorative key toothed locking joints are key features of this desk lamp. The arm rotates at the column step and the canopy head swivels left/right. Shade interior is White painted for extra illumination.

**Material:**  
Steel.

**Finish:**  
Black Bronze with English Brass (BB/EBR).

# Desk STUDY

**Features:** Desk lamps with heavy stepped bases and two toothed locking key swivel joints. Bases include integral toggle switch. Custom finishes available for minimum order quantities of 50 pieces. Other shade fabric options are available to special order.

**Material:**  
Steel.

**Finishes:** Black Bronze with English Brass (BB/EBR) or Polished Chrome (C).

# BATHROOM

Project: CUSTOM MIRRORS at Hilton Glasgow.  
Designer: Bell & Swift.  
Photography courtesy of Pellier Photography.

## ZONE 1

The area above that is defined by the perimeter of the bath or shower tray.

Luminaires must have a minimum rating of IPX4.\*

## ZONE 2

Area adjoining bath or shower tray.

Outside the perimeter of the bath or shower up to 600mm, luminaires with a minimum IPX4 rating are required.

## OUTSIDE OF ZONES

The remaining area of the bathroom beyond Zone 2.

In this area any luminaires can be used if protected by an RCD.

\*Only bath or shower areas are relevant in these regulations – washbasins are not.

If water jets are used (this does not include showerheads), a minimum of IPX5 is required.

## REQUIREMENTS BASED ON REGULATIONS FOR LUMINAIRES IN AREAS CONTAINING A BATH OR SHOWER

For the purpose of defining the regulations, the bathroom is divided into two zones as shown above. In any room containing a bath or shower, protection by a RCD (Residual Current Device) of 30mA with a response time of 0.4 seconds is required for each circuit.

# Bathroom CUSTOM MIRRORS

Chelsom are specialists in the design and manufacture of custom mirrors for the global hospitality market. All sizes and shapes can be considered together with different light sources and different metal finishes. There may be minimum order quantity requirements. Please contact Chelsom with any enquiry.

# Bathroom MIRRORS

**Features:** Guest bathroom mirrors in various finishes. BW/116/LED has an integral shaver socket and demister pad as standard (other mirrors can have the demister pad option). IP ratings and zone positions are shown. Please refer to the diagram on page 149.

**Materials:** Steel or aluminium with glass.

**Finishes:** Brushed Gold (BRG) or Satin Black (BL) for BW/220/\* and BW/230/\*. All mirrors on this page have White painted backboxes. Special finishes available for minimum order quantities of 50 pieces.

# BATHROOM

**Features:** BW/310/\* shaving mirrors are fully adjustable and feature 3x magnifying mirrors with LED illumination from a frosted periphery. Backplates have colour-matched metal push switch. For PJ/9/W1/IP44 price and dimensions include wipeable fabric shade. BW/22 is complete with Opal glass shade. BW/112/LED has stepped end details with Opal glass diffuser and can also be mounted horizontally.

**Materials:** Steel with glass.

**Finishes:** Polished Chrome (C) or Satin Black (BL) except BW/22 which is Polished Nickel.

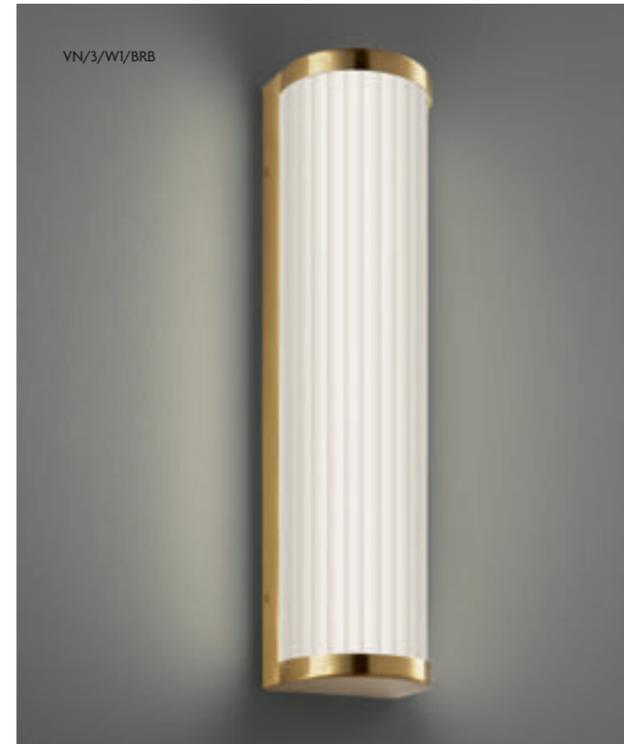

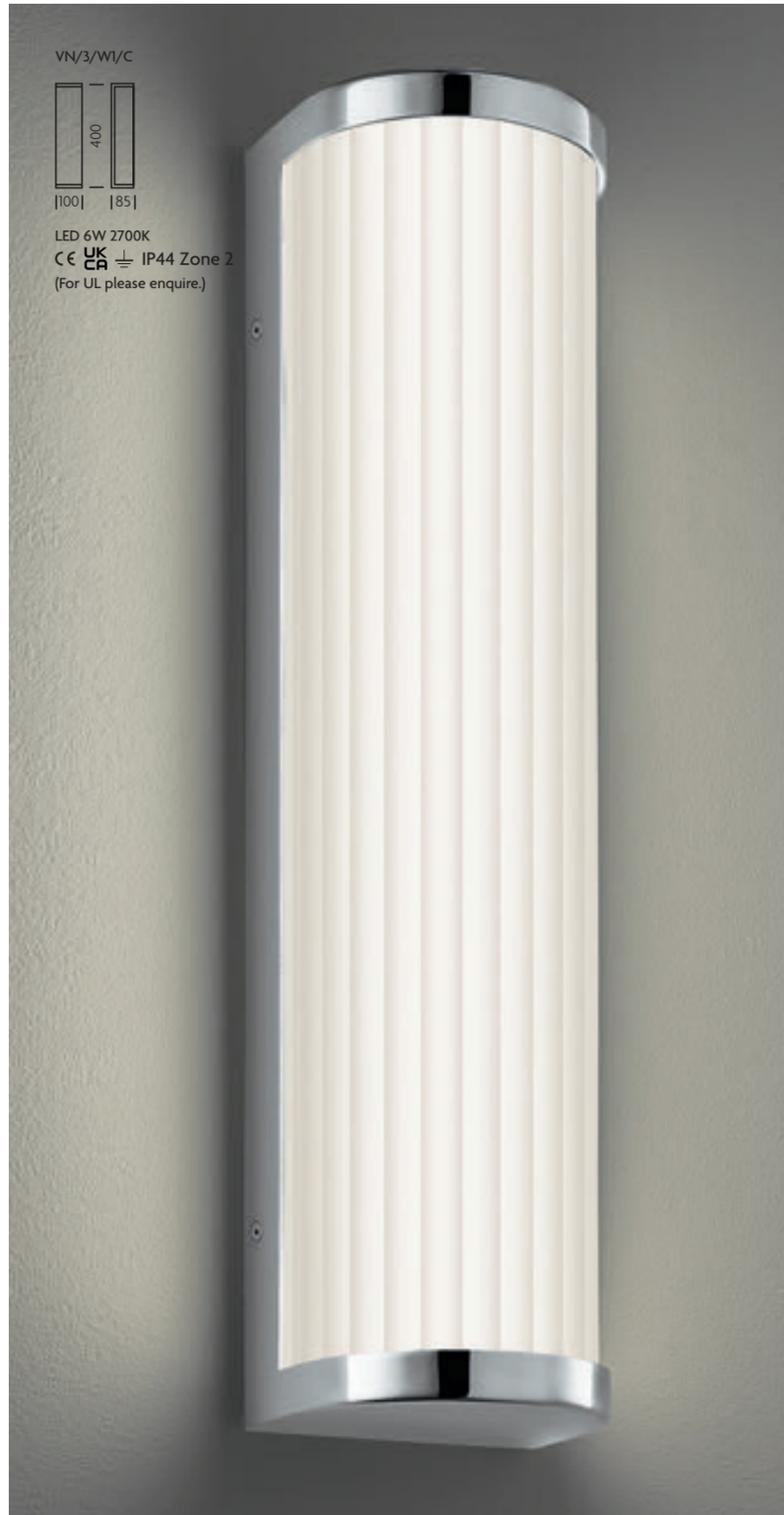

Copyright 2023 Chelsom Ltd

# VENICE

**Features:** Moulded ribbed glass diffusers are frosted on the inside but smooth on the outside for ease of cleaning. Glass and frame is removable as one unit for installation and maintenance. Vertical or horizontal mounting possible. IP ratings and zone positions are shown. Please refer to the diagram on page 149.

**Materials:**  
Steel and glass.

**Finishes:**  
Brushed Brass (BRB), Satin Black (BL) or Polished Chrome (C) with Clear frosted glass diffuser.

Copyright 2023 Chelsom Ltd

# BATHROOM

**Features:** Elegant bathroom lighting for contemporary interiors. For BW/21/\*, the LED light spreads evenly throughout the Opal diffuser and reflects off the curved backplate.

For BW/82/\*, LED light evenly fills the full length of the frosted solid acrylic rods.

IP ratings and zone positions are shown. Please refer to the diagram on page 149.

**Materials:**

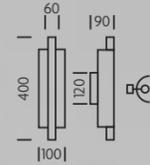

Steel with acrylic diffusers.

**Finishes:**

Polished Chrome (C) or Brushed Brass (BRB). Also Black Bronze (BB) for BW/21/\* or Satin Black (BL) for BW/82/\*. Diffuser for BW/21/\* is Opal and for BW/82/\* is Clear frosted.

# CERAMIC ART

**Features:** Melon-shaped ceramic table lamps with deeply sculptured ribbing and high gloss glazes in a deep olive green Nocellara colour or a lightly mottled Grigio.

**Materials:**  
Ceramic with steel.

**Finishes:**  
Nocellara or Grigio  
with Satin Brass.

Copyright 2023 Chelsom Ltd

# CERAMIC ART

**Features:** Sculptured table lamps with horizontal patterned relief to create a striking overall effect. The Concrete finish has a nice varied patina and the Milk finish allows the pattern to come through strongly.

**Materials:**  
Ceramic with steel.

**Finishes:**  
Concrete or Milk with Satin Brass.

# CERAMIC ART

**Features:** A delicately moulded random coral texture catches the light on these handmade ceramic lamps. The tops have a wide inset ceramic disc.

**Materials:**  
Ceramic with steel.

**Finishes:**  
Concrete or Grigio with Satin Brass.

# CERAMIC ART

**Features:** Classic and elegant ceramic table lamps in either a high gloss Black Marble glaze or Limestone matt glaze.

**Materials:**  
Ceramic with steel.

**Finishes:**  
Black Marble or Limestone with Satin Brass.

# CERAMIC ART

**Features:** A handmade ceramic lamp with an absolutely natural feel including an asymmetric shape and random relief. The look is completed with a matt Plaster finish. A really striking decorative lamp.

**Materials:**  
Ceramic with steel.

**Finish:**  
Plaster with Satin Brass metalwork.

Copyright 2023 Chelsom Ltd

# COPENHAGEN

**Features:** A unique outer frame encloses a tapered cone shade giving soft general light and good light down onto the table. A matt Opal acrylic diffuser at the top avoids any glare and the lamp is operated by a knurled rotary dimmer switch in the base.

**Materials:**  
Steel with acrylic diffuser.

**Finishes:**  
Brushed Brass (BRB) or Brushed Nickel (BN).

CG/28/TL/BRB with optional shade QCG/10/WP

# LISBON

**Features:** A supremely elegant feature table lamp with gently tapering body supporting a domed metal shade which is fixed with three nicely detailed knurled nuts. The shade interior is painted white to give a cast of light down onto the table.

**Material:**  
Steel.

**Finishes:**  
Brushed Brass (BRB) or Black Bronze with English Brass (BB/EBR).

LI/16/TL/BRB with optional shade QDO/16/BRB

Copyright 2023 Chelsom Ltd

# POISE

**Features:** Shallow top canopies with detailed top washers conceal warm white LED light shining down through an Opal acrylic diffuser.

**Materials:** Steel and acrylic diffuser.

**Finishes:** Golden Bronze (GB) or Satin Black with Golden Bronze (BL/GB).

# SHADOW

**Features:** A Brushed Brass outer frame holds faux alabaster panels on both sides emitting a warm ambient light forwards and backwards. The frame slots within a heavy Brushed Brass cylindrical section and the table lamp stands on three clear rubber feet. Table lamp has an inline dimmer switch and the wall light can be mounted with different orientations.

**Materials:** Steel and acrylic.

**Finish:** Brushed Brass with faux alabaster.

# ROCK

**Features:** Refined vertical and curved columns sit on square detailed plates and heavy Natural stone cubes ensuring good stability.

**Materials:**  
Steel with  
natural stone.

**Finish:**  
Black Bronze  
metalwork with  
Natural stone.

# THAMES

**Features:** A solid block of polished Natural stone is framed with Brushed Brass metalwork standing on a heavy plinth base.

**Materials:**  
Steel and  
natural stone.

**Finish:**  
Brushed Brass with  
polished Natural stone.

# VOGUE

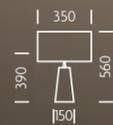

Features: Well proportioned detailed conical table lamp using contrasting finish materials.

Material:  
Steel.

Finish:  
Antique Brass with Black  
Bronze (AB/BB).

# OSLO

**Features:** Mouthblown glass is matched with an English Brass cap and base. Tapered perforated brass column features inside the glass.

**Materials:**  
Glass and steel.

**Finish:**  
Clear glass with English Brass.

# CRADLE

**Features:** Fine tubular metal frames create a 'cradle' to hold mouthblown matt Opal glasses which give a soft glow of light. Legs have black rubber feet. **DIMENSIONS AND PRICES INCLUDE GLASS.**

**Materials:**  
Steel and glass.

**Finishes:**  
Satin Black (BL) or Golden Bronze (GB) with matt Opal glass.

# STOCKHOLM

**Features:** Clean lines and seamless joints between glass and metalwork with internal silk-covered colour matched cables.

**Materials:**  
Steel and glass.

**Finish:**  
English Brass (EBR) with  
Clear glass.

**Shades:**  
See back of catalogue  
for optional shades.

Copyright 2023 Chelsom Ltd

# GLASS ART

**Features:** Mouthblown Veneto glass lamps, GA/88/TL/MOCCA having sculptured rounded features and GA/78/TL/SM a detailed geometric pattern. Both lamps are finished with delicate English Brass metalwork.

**Materials:**  
Glass with steel.

**Finishes:**  
Mocca for GA/88/TL and Smoke (SM) for GA/78/TL and both with English Brass metalwork.

Copyright 2023 Chelsom Ltd

# GLASS SCULPTURE

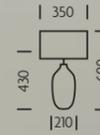

**Features:** Heavy, solid Smoke glass centre with Clear glass outer is hand sculpted, making every piece unique with slight variations in shape and blend of colours. Silk covered cable runs externally.

**Materials:** Hand formed Veneto solid glass with dual colours and steel metalwork.

**Finish:** Smoke with Clear glass and Black Bronze metalwork. Also available with Chrome metalwork.

# LAGUNA

**Features:** Rediscovered artisan glass moulds, which had lain unused since the 1960s, create stunning geometric patterned mouthblown glass table lamps.

**Materials:**  
Glass with steel.

**Finish:**  
Mocca glass with Golden Bronze metalwork and Gold silk-covered cable.

Copyright 2023 Chelsom Ltd

# SILVER SCULPTURE

**Features:** Hand forged iron bars with a distressed organic feel are enhanced with hand applied Antique Silver Leaf. See pages 276-277 for matching chandeliers and wall lights.

**Material:**  
Hand forged iron.

**Finish:**  
Florentine Antique Silver Leaf.

**Shades:**  
See back of catalogue for optional shades.

# FLOOR

**Features:** The classic tripod floor lamp is enhanced with chrome detailing including top cap, feet and central cross piece to give stability. The cable runs internally down one leg and exits at the foot.

**Materials:**  
Wood and steel.

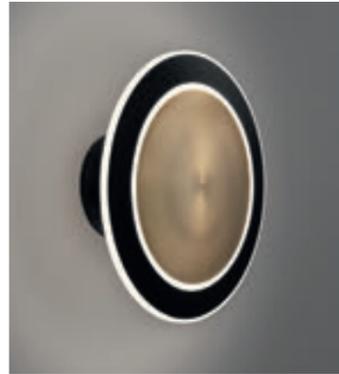

**Finish:**  
Wenge wood with Polished Chrome.

# ARC

**Features:** An ideal bedside wall light featuring a shallow rectangular backplate which has a front cylindrical section through which the arm passes allowing full left/right rotation with inbuilt stops to prevent the shade touching the wall. The head swivels in every direction to give perfect light distribution. Satin Black metal shades have rolled edges with fabric shade options also available.

**Material:**  
Steel.

**Finishes:**  
Brushed Brass (BRB) or Satin Black (BL).

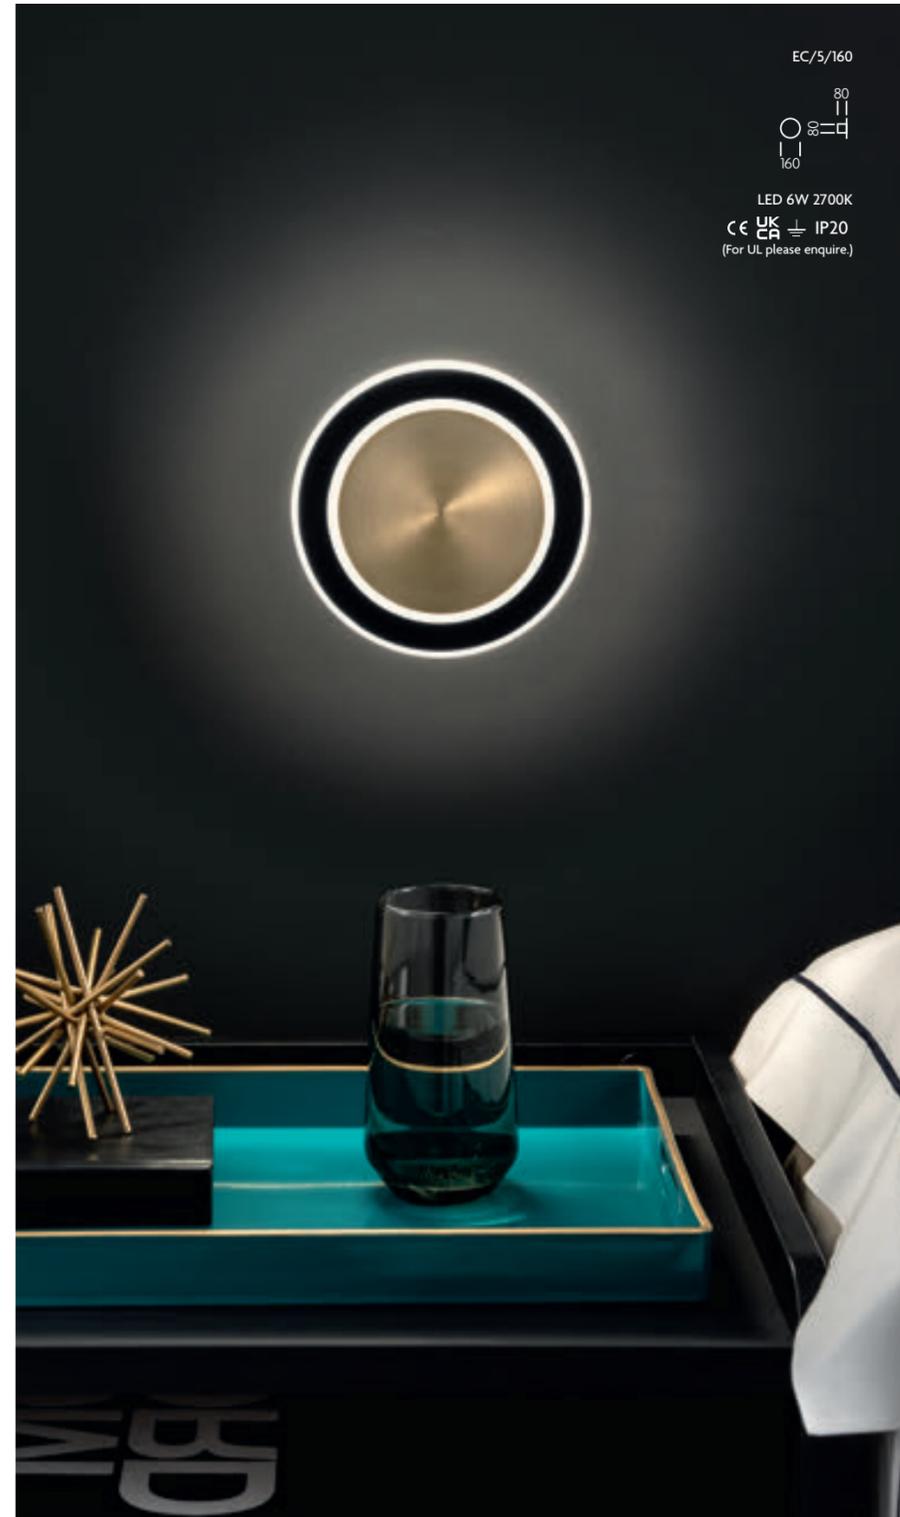

Copyright 2023 Chelsom Ltd

# ECLISSE

**Features:** Simple circular wall lights featuring two concentric rings of LED warm white light which cast light forward, whilst at the same time creating a halo of light back onto the wall behind. The two sizes make the product ideal for hotel guestroom, corridors or other public areas. The fittings can also be ceiling mounted.

**Materials:**  
Steel and  
frosted acrylic.

**Finish:**  
Golden Bronze  
with Satin Black.

# GLASS ART

**Features:** An imposing large scale public area wall light which features a robust blown glass in either Matt Alabaster or matt Opal glass. The glass is threaded onto the metalwork for a secure fixing. The substantial domed top cap and all the metalwork is in a Brushed Brass finish. **THIS WALL LIGHT IS PRICED WITH AND COMES COMPLETE WITH LAMP AS SHOWN.**

**Materials:**  
Steel and glass.

**Finishes:**  
Brushed Brass with  
Matt Alabaster  
(MA) or matt Opal  
(OP) glass.

Copyright 2023 Chelsom Ltd

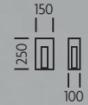

# ISLINGTON

**Features:** The classic wall lantern design is greatly enhanced by the addition of an internal matt Opal acrylic chimney to give softly diffused light through the sparkling clear glass panels. The chimney is capped with a colour-matched metal detail and wall fixing screws have finely knurled collars.

**Materials:**  
Steel, glass  
and acrylic.

**Finishes:**  
Brushed Brass (BRB)  
or Satin Black (BL).

# GLASS EFFECT

**Features:** Wall lights have Veneto Gold Leaf hand-applied to the back of the glass. This gives a striking golden glow to the front and a crackle pattern at the back where light seeps between individual gold leaf sheets. GE/20203/GL has deep steps in the design, creating a concentric ring pattern onto the gold-topped reflector lamp. Also suitable for ceiling mounting. **THE RANGE IS PRICED WITH AND COMES COMPLETE WITH LAMPS AS SHOWN.**

**Materials:** Steel and glass.  
**Finish:** Brushed Brass metalwork with Gold Leaf (GL) glass.

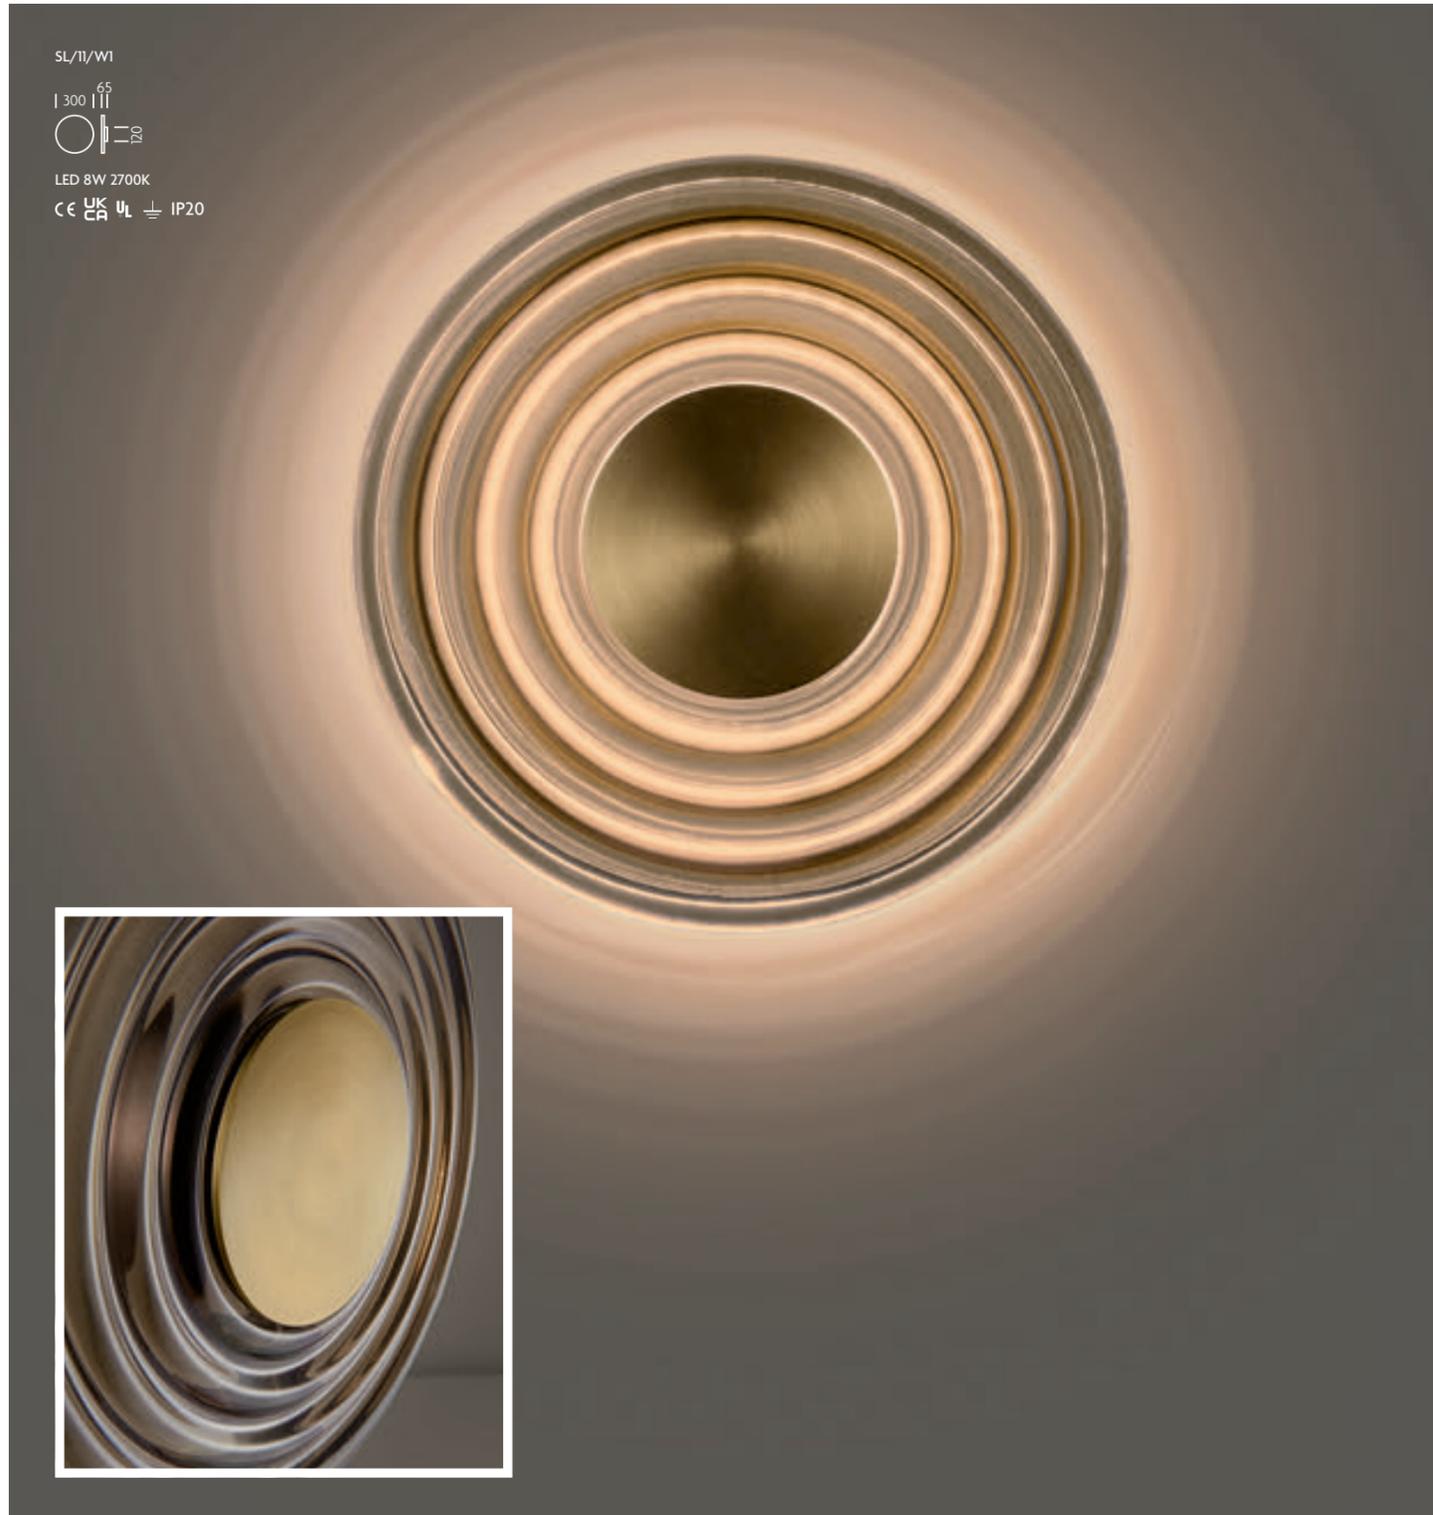

Copyright 2023 Chelsom Ltd

# SOLAR

**Features:** Heavy circular glasses have deep concentric rebates creating a light effect of ripples on a pond. Wall lights also give a decorative spill of light onto walls.

**Materials:**  
Steel and glass.

**Finish:**  
Metalwork is finished in  
Satin Black with English  
Brass accents. Glass is Smoke.

# MARLOW

**Features:** A heavy and deeply ribbed matt Opal glass cylinder shade sits within a contrasting Golden Bronze frame mounted onto a stepped rectangular backplate. Dimensions and prices include glass shade.

**Materials:**  
Steel and glass.

**Finish:**  
Golden Bronze with  
matt Opal glass.

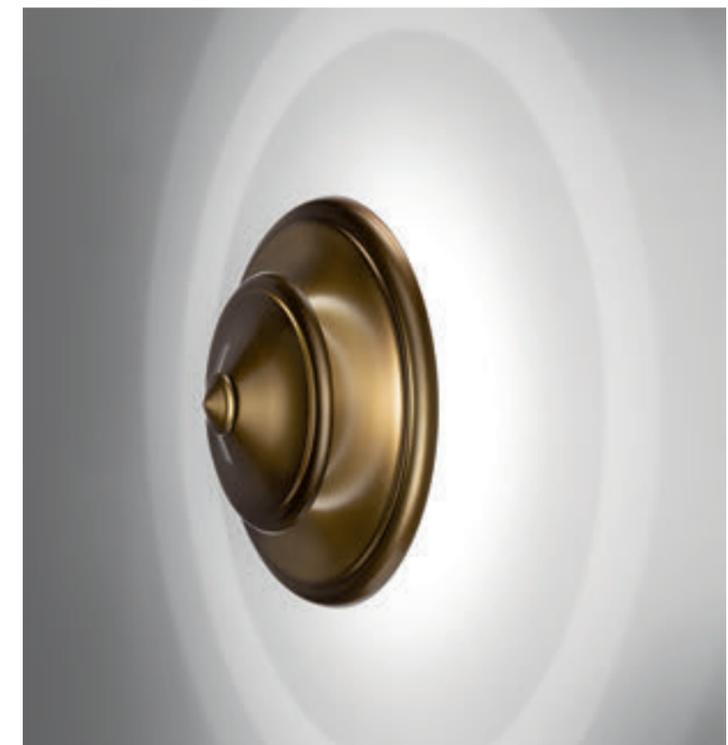

# ASTAIRE

**Features:** Straight out of the 1930s, these Art Deco wall lights feature beautifully detailed spinnings which reflect the light from the warm LED light sources inside. Both wall lights give an elegant glow onto the surrounding walls and AA/28/W1/ASB has an Opal acrylic top diffuser. See page 245 for the matching chandelier.

**Materials:**  
Steel and  
acrylic diffuser.

**Finishes:**  
Astaire Bronze (ASB) with  
Opal acrylic diffuser.

Copyright 2023 Chelsom Ltd

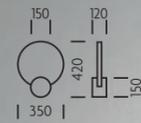

# SHADOW

**Features:** A Brushed Brass outer frame holds faux matt alabaster panels on both sides emitting a warm ambient light forwards and backwards. The frame slots within a heavy Brushed Brass cylindrical section. The wall light can be mounted with different orientations. The table lamp has an inline dimmer switch.

**Materials:**  
Steel and acrylic.

**Finish:**  
Brushed Brass with faux matt alabaster.

# DUET

**Features:** DT/14/W2/BRB has matt Opal globes which emit soft diffused light inside a sparkling clear glass cylinder. DU/6/W2/BRB is a neat two light wall light featuring matt Opal globes mounted onto a rounded rectangular backplate. Both models are IP44 rated and can be used in bathrooms.

**Materials:**  
Steel and glass.

**Finishes:**  
Brushed Brass (BRB) with matt Opal and Clear glasses.

# COULOIR

**Features:** A curved sculptured wall light which emits a warm glow of up and down light reflected off the Champagne Gold interior. **PRICED WITH AND COMES COMPLETE WITH LAMPS AS SHOWN.**

**Material:**  
Steel.

**Finish:**  
Satin Black with Champagne Gold (BL/CHG).

Copyright 2023 Chelsom Ltd

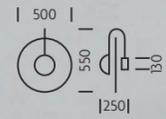

# REFLECTOR

**Features:** Warm white LED light in the central housing glows back off the faceted reflector plate. The wall light is available in two sizes and can also be used as a flush mounted ceiling fitting. Grouped together, wall lights can make a strong decorative statement.

**Material:**  
Steel.

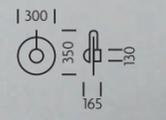

**Finish:**  
Brushed Brass with  
Satin Black (BRB).

# DIRECT

**Features:** Decorative wooden handle allows rotational movement left and right and there is also a swivel joint above the shade. Shade options include colour matched ventilated metal or fabric – Natural shown here with other options at back of catalogue. Suitable for bedside or desk use.

**Materials:**  
Steel and wood.

**Finish:**  
Black Bronze (BB)  
with Walnut.

# SHIELD

**Features:** The perforated metal tapered half shade on the wall light emits a warm glow and throws light onto the oval backplate creating a halo effect around its concave curved perimeter. The chandelier has full conical shades giving the same glow. All shades have Opal acrylic liners to diffuse the light softly. 2500K filament lamp recommended.

**Material:**  
Steel.

**Finish:**  
Golden Bronze  
with Satin Black.

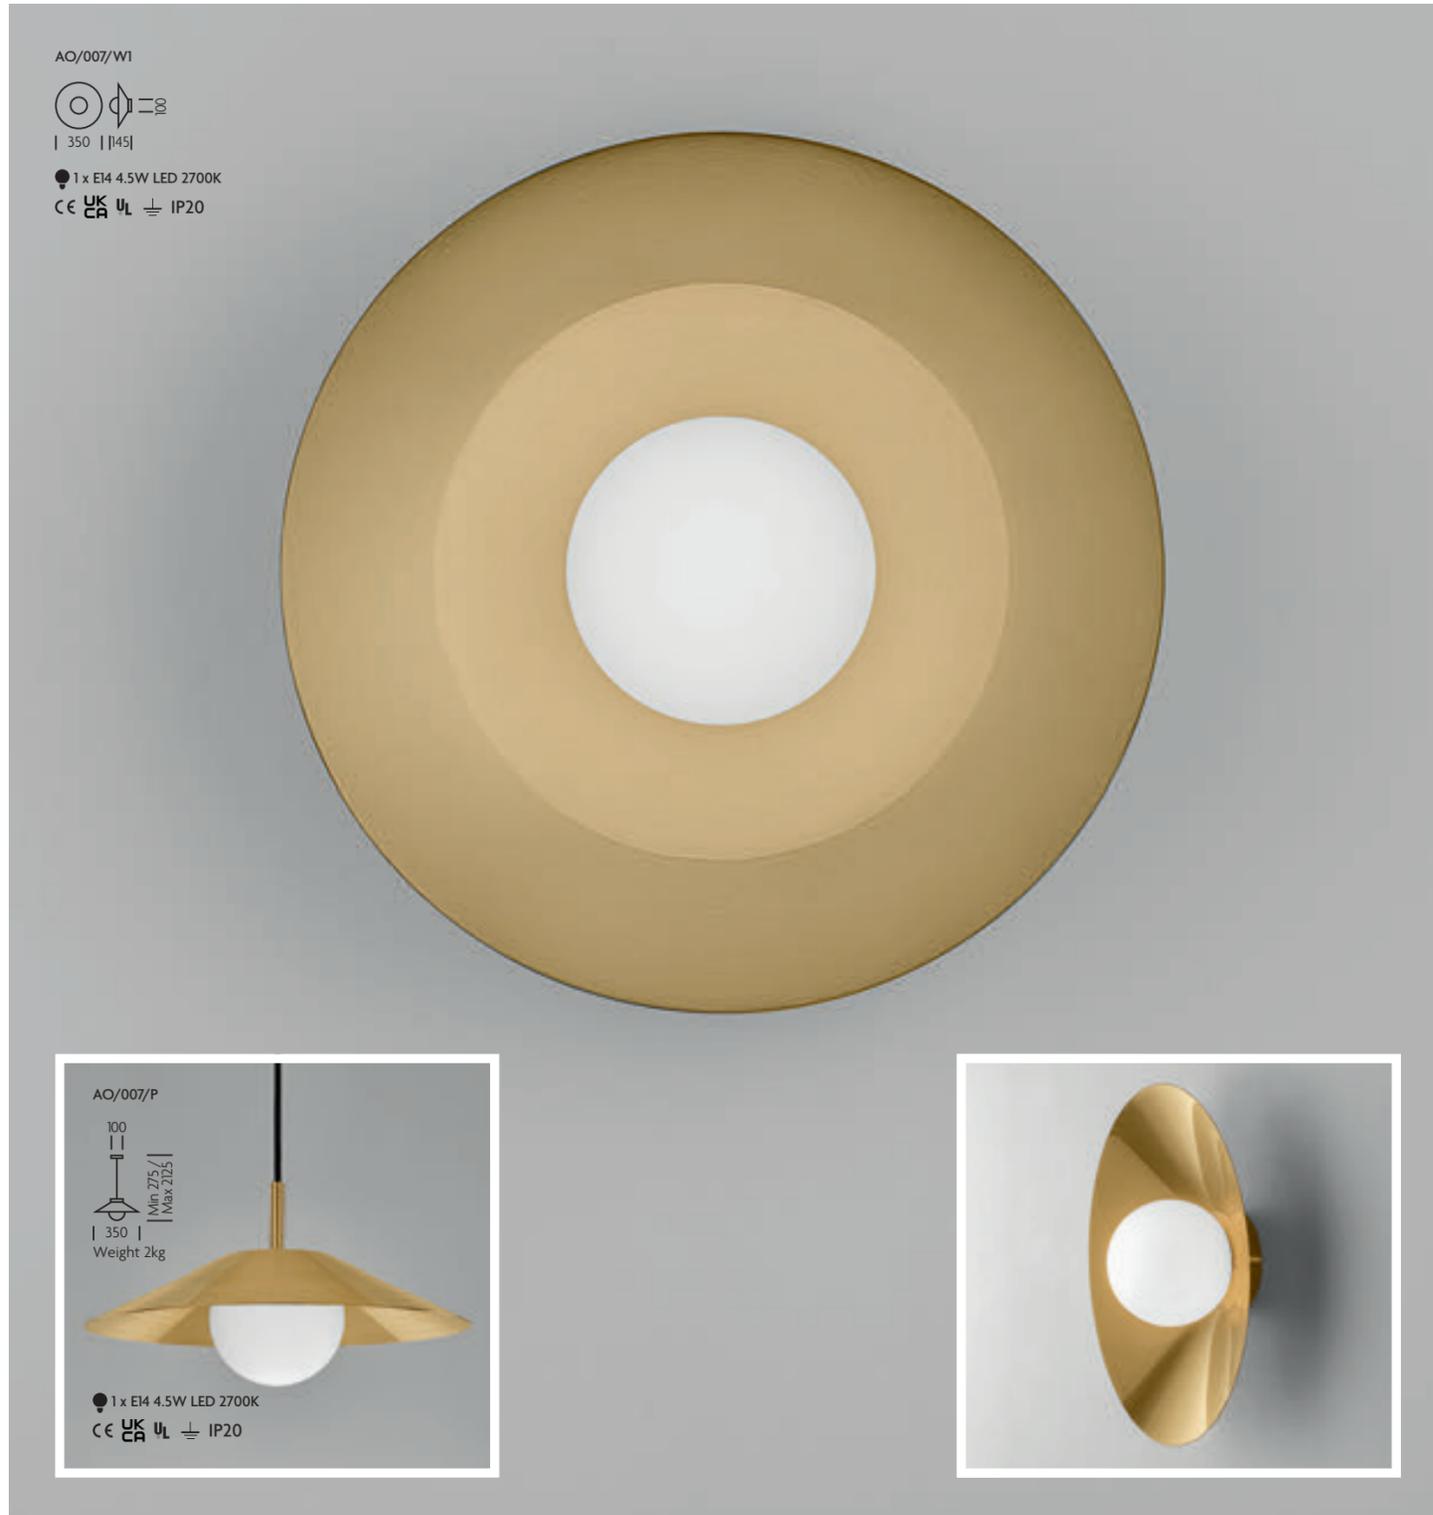

Copyright 2023 Chelsom Ltd

# APOLLO

**Features:** Matt Opal glass globes are centred within shallow cones which reflect the warm glow of light. The pendant is suspended with black silk covered cable. The wall light is also suitable for use as a flush fitting.

**Materials:**  
Steel and glass.

**Finish:**  
Brushed Brass with matt Opal glass.

# PEAR

**Features:** A tiny point of LED light projects a sparkling glow into a sculptured crackle glass pear which then reflects delicate patterns onto the wall. See pages 308-309 for matching pendants.

**Materials:**  
Steel and glass.

**Finish:**  
Brushed Brass with Clear crackle glass.

# CUBE

**Features:** A simple but effective public area wall light giving a defined up and down light pattern onto walls. The products can be used individually or grouped to make a dramatic decorative light effect. Drivers are integral.

**Materials:**  
Aluminium and steel.

**Finishes:**  
Brushed Gold with White interior (BRG/W),  
Black with White interior (BL/W), or Soft  
White with White interior (SW/W).

# PRESTIGE WALL LIGHTS

**Features:** CI/36/W2/PB has dimmable integral LED light which sparkles and refracts through individual solid clear glass rods. For RG/3/W1 models, a similar light source shines light upwards into heavily frosted glass candles within sparkling clear glass chimneys, which sit in hexagonal cups and have delicate top caps.

**Materials:**  
Steel and glass.

**Finishes:**  
Polished Brass (PB) for CI/36/W2/PB; English  
Brass (EBR) or Black Bronze (BB) for RG/3/W1.

Copyright 2023 Chelsom Ltd

# PRESTIGE WALL LIGHTS

**Features:** For LX/6/WW, a Satin Black metal outer shade with rolled edges encloses a Brushed Brass slotted metal cylinder inner shade. The outer shade is fixed with knurled screw heads. SY/45/W1/BL/GB has an adjustable asymmetric metal shade and the arm rotates left/right. SI/23/W1 models feature handmade fabric shades sitting within metal circles.

**Materials:**  
Steel and acrylic.

**Finishes:**  
Brushed Brass with Satin Black for LX/6/WW; Satin Black with Golden Bronze (BL/GB) for SY/45/W1/BL/GB; Satin Black (BL) or Brushed Brass (BRB) for SI/23/W1\*.

# PRESTIGE WALL LIGHTS

**Features:** MF/22/W2/BRB has classic Art Deco styling featuring frosted acrylic geometric side panelling emitting light forwards and back onto the wall. CV/16/W1/GB has distinctive crossover section metalwork. CZ/30/W1 has a cantilevered arm supporting brass-capped Clear glass bell shade with an Opal interior globe lamp giving a warm glow and is priced with and comes complete with lamp as shown.

**Materials:**  
Steel, glass and acrylic.

**Finishes:**  
Brushed Brass with Satin Black for CZ/30/W1; Brushed Brass (BRB) for MF/22/W2/BRB; and Golden Bronze (GB) for CV/16/W1/GB.

Copyright 2023 Chelsom Ltd

# PRESTIGE WALL LIGHTS

**Features:** MD/\* models have substantial square section arms and feature outer rectangular or square shades which are Smoke transparent (SM) or Black Chintz with Champagne Gold liner (BG). Inner cylinder shades are Natural Parchment (NP). WT/\* wall light has a knurled detail on the column. SG/\* model features thick Clear seed glass with internal Hemp (HE). Other shade fabrics available.

**Materials:**  
Steel (with glass for SG/25/W1/BB).

**Finishes:**  
Black Bronze with English Brass (BB/EBR) for MD/\* and WT/\* models, Black Bronze (BB) and Clear seed glass for SG/\* model.

# PRESTIGE WALL LIGHTS

**Features:** Wall lighting which is highly suited to public spaces, corridors or guestroom bedsides. SA/40/W2/GB and PB/70/W1/BN have Opal acrylic diffusers. PB/50/BN gives up and down light.

**Materials:**  
Steel and acrylic.

**Finishes:**  
Brushed Nickel (BN) for PB/50/BN and PB/70/W1/BN and Golden Bronze (GB) for SA/40/W2/GB.

Copyright 2023 Chelsom Ltd

# SCONCE

**Features:** Shade shape creates striking light effect up and down plus reflected light. Shades shown are Black chintz with Brushed Copper lining (BL/COP) or Natural (NAT). Other shade fabrics to special order.

**Materials:**  
Steel metalwork  
with various fabric  
options.

**Finish:**  
Satin Black (BL)  
metalwork.

# SCONCE

**Features:** Simply designed bedside or public space wall lights with fabric shades supported by detailed metal brackets. The shade tops are enclosed with the same fabric as the shade fronts and there is a matt Opal acrylic diffuser underneath to avoid glare. Other shade fabrics are available.

**Materials:**  
Steel and  
acrylic diffuser.

**Finishes:**  
Satin Black (BL) or  
Champagne Gold (CHG)  
with matt Opal acrylic.

# ROOM NUMBERING

**Features:** Chelsom are experienced in creating room numbering wall lights for hotel and marine projects. Illustrated are three standard products which can be manufactured to suit customers' quantity and numbering requirements. All prices will be quoted on a project by project basis. The facing page shows a unique corridor room numbering wall light which gives general illumination with a 'Do not disturb' feature when the 'eyelashes' are illuminated.

**Materials:** Steel and acrylic.

**Finishes:** Brushed Brass with faux alabaster for HD/25/WI/RN, Black Bronze for HD/25/WI/RN, Black Bronze with Antique Brass for RN/01, and Satin Black for RN/03.

# LOIRE

**Features:** Shallow ring chandeliers featuring high quality prismatic glasses illuminated by concealed warm LED light. The individual prisms feature on the inside and the outside of the rings as well as on the underside to give a dramatic lighting effect all round. Two sizes are available and suspension strainer wires can be adjusted for height at time of installation. For lower ceilings, the product can be adapted to reduce overall drop - please enquire.

**Materials:**  
Steel and glass.

**Finish:**  
Brushed Brass  
with Clear glass.

# BALLROOM

**Features:** Dazzling centrepiece chandeliers with a mass of glass pendant drops. The BL/80/\* fittings have rectangular crinkle pattern glass pendants with alternate Clear and Mirrored Smoke finishes. The BL/81/P has crescent-shaped pendants with a beaded detail in alternate Clear and Smoke finishes.

**Materials:**  
Steel and glass.

**Finishes:**  
Brushed Brass with Clear and Mirrored Smoke glass for BL/80/P and BL/80/W3 and Clear with Smoke glass for BL/81/P.

Copyright 2023 Chelsom Ltd

# ICE

**Features:** A dramatic ambient light effect comes from fine points of warm LED light which shine into the individual random glass shards and refract off the bevelled edges. Two sizes are available and both come with strainer wires of 2m length which can be adjusted for height during installation. For lower ceilings, the product can be adapted to reduce overall drop - please enquire.

**Materials:**  
Steel and glass.

**Finish:**  
Golden Bronze  
with Clear glass.

# CHEVRON

**Features:** Attractive centrepiece chandeliers which feature concave folded metal 'chevrons' which are Satin Black on the outside but a warm gold colour on the inside to give a nice ambient light. There is an Opal acrylic diffuser in the bottom. The fittings are supplied with fixed rod suspensions which can be shortened to suit customer requirements. A chain suspension can be added if required.

**Materials:**  
Steel with  
acrylic diffusers.

**Finish:**  
Satin Black with  
gold interior and  
Opal acrylic.

Copyright 2023 Chelsom Ltd

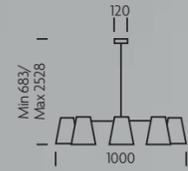

# SHIELD

**Features:** The Shield chandelier has perforated metal conical shades giving a warm glow through Opal acrylic liners. The half shade on the wall light throws light onto the oval backplate creating a halo effect around its concave curved perimeter. 2500K filament lamps recommended.

**Material:**  
Steel.

**Finish:**  
Golden Bronze  
with Satin Black.

SF/30/8

Weight 11kg

8 x E27 6W LED 2500K

SF/29/W1 (also see page 219)

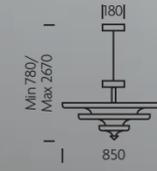

# ASTAIRE

**Features:** With pure Art Deco styling, this elegant pendant with its matching wall lights will grace any interior from the 1930s to the present day. The warm internal LED light reflects off the underside of each detailed spinning and there is recessed uplight on top to illuminate ceilings. Matching wall lights give an ambient glow onto surrounding walls (see also page 205).

**Material:**  
Steel.

**Finish:**  
Astaire Bronze.

# CAMBRIDGE

**Features:** A timeless design provides a focal point of traditional or contemporary interiors with simple straight lines. The fittings are enhanced by either Oyster mushroom pleat shades or scalloped shades with contrasting top and bottom black trim. Other shade fabrics are available.

## studio<sup>c</sup> — BY CHELSOM —

**Material:**  
Steel.

**Finishes:**  
Golden Bronze (GB)  
or Satin Black (BL).

# MANCHESTER

**Features:** A striking chandelier with asymmetric arms to give a random look with warm LED light within the matt Opal glass globes which are screwed on for robust fixing. The Brushed Brass central ball and glass holders contrast with Satin Black metalwork.

## studio<sup>c</sup> — BY CHELSOM —

**Materials:**  
Steel and glass.

**Finish:**  
Satin Black with Brushed Brass and matt Opal glass.

Copyright 2023 Chelsom Ltd

# CONSTELLATION

**Features:** Ceiling fittings with an organic design giving a random pattern of arms and matt Opal globes. Glasses have threaded inserts to screw on for a durable fixing. Custom designs and sizes can be manufactured.

**Materials:**  
Steel and glass.

**Finish:**  
Brushed Brass with  
matt Opal glass.

Copyright 2023 Chelsom Ltd

# HALO II

**Features:** A really decorative collection of guestroom or public area lighting which features warmly lit matt Opal globes set asymmetrically within Brass rings. The rings rotate at the end of chandelier arms so they can have any orientation. Wall light, HA/150/FP, is for bedside use and is wired from the ceiling with the arm bracket being for stability. As ceiling heights will always differ, this is a custom piece to special order with MOQ 50 pieces.

**Materials:**  
Steel and glass.

**Finish:**  
Brushed Brass with Satin Black and matt Opal glass globes.

# ICICLE

**Features:** Integral LED light sources in the base of the glass icicles throw light upwards giving a warm ambient glow whilst reflecting off the tiny silver leaf flecks within the handmade glass. Alternate arms curve upwards or downwards. IC/24/P gives a warm downlight glow. Note: Glass icicles are handmade and may have slight variations. Single pendants can be used individually as part of any custom design or suspended from a custom ceiling plate.

**Materials:**  
Steel and glass.

**Finish:**  
English Brass  
with silver-flecked  
Clear glass.

# SILVER SCULPTURE

Features: Handmade lighting in forged iron with an organic feel.

**Material:**  
Hand forged iron.

**Finish:**  
Florentine Antique  
Silver Leaf.

**Shades:**  
Spring clip candle  
shades available – see  
back of catalogue.

# GLASS Quilt

**Features:** Highest quality mouthblown Veneto glass with a moulded quilt pattern. With the larger size, the light shines from a unique internal LED 'light sabre' which creates a dramatic light effect whilst the light source itself is almost hidden. There are two sizes of globe glass, both with Clear or Smoke options. The large size is suspended with a twisted silk-covered cable and the smaller with a plain silk-covered cable.

**Materials:**  
Mouthblown  
Veneto glass  
with steel.

**Finishes:**  
Smoke glass (SM)  
or Clear glass (CL)  
with Brushed Brass  
metalwork.

# FEATURE Pendants

**Features:** A range of high quality mouth blown glass decorative ambient pendants. FP/741/OPAL and FP/742/OPAL feature deeply ribbed retro shapes and the FP/GLOBE/\* design is available in three sizes. All pendants are complete with suspension and ceiling plates. **FP/90/\* MODELS ARE PRICED WITH AND COME COMPLETE WITH LAMP AS SHOWN.**

**Materials:**  
Mouth blown glass with steel.

**Finishes:**  
Matt Alabaster or matt Opal glass for FP/90/\*. Matt Opal for all others. Brushed Brass metalwork.

# FEATURE Pendants

**Features:** Decorative metal shade pendants for hospitality public areas or guestroom. Satin Black metal shades have rolled edges and LX/6/P has a Brushed Brass internal cylinder with vertical light slots. AO/007/P has a matt Opal globe centred within a shallow Brushed Brass cone to reflect a warm glow. AR/10/P has a closed top metal shade to prevent uplight glare.

**Materials:**  
Steel with glass.

**Finishes:**  
Polished Chrome (C) for DN/125/C; Brushed Brass with Satin Black for LX/6/P and AR/10/P; Brushed Brass with matt Opal glass for AO/007/P.

# LAGUNA Pendants

**Features:** Rediscovered artisan glass moulds which had lain unused since the 1960s create stunning geometric patterned mouth blown Veneto glass pendants. Suspension units have knurled detailing. PENDANTS ARE PRICED WITH AND COME COMPLETE WITH LAMPS AS SHOWN.

**Materials:**  
Glass with steel.

**Finishes:**  
Mocca glass with Golden Bronze metalwork and Black silk-covered cable.

# SNAP

**Features:** Fabric shades 'snap on' to backplates or ceiling plates for ease of installation and maintenance.

**Materials:**  
Steel frames with fabric diffusers.

**Finish:**  
Natural fabric with Oyster bottom diffusers on flush fittings.

Copyright 2023 Chelsom Ltd

# WELCOME Scalloped

**Features:** A warmly rich textured Fine Raffia fabric gives an ambient glow of light. The shades have deeply scalloped bottom edges and are accentuated top and bottom with a black soutache line. The pendant is enclosed at the top and has a bottom Opal acrylic diffuser.

**Materials:**  
Fine raffia,  
steel and acrylic.

**Finish:**  
Fine Raffia with opaque PVC  
backing. Satin Black metalwork  
and Opal acrylic diffuser.

# WEAVE

**Features:** This three tier pendant features top and bottom natural Cane sections and a wider centre section in Hessian fabric with Opal acrylic bottom diffuser. This pendant can be manufactured in custom sizes and has a matching wall light.

**Materials:**  
Natural cane,  
hessian and  
steel with  
acrylic diffuser.

**Finish:**  
Natural Cane  
and Hessian.

Copyright 2023 Chelsom Ltd

# WELCOME

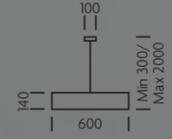

**Features:** BR/5 is an extremely shallow pendant emitting good light through a fabric outer shade and a matt Opal acrylic diffuser underneath. WE/10 items have fabric shades enclosed by a cruciform top frame which drops down the outside of the shades. WE/10/700 has an internal bottom self-fabric diffuser. Other shade fabrics are available. Custom Welcome shades are shown on the facing page and we look forward to all enquiries for special shade creations.

**Materials:**  
Steel, with acrylic for BR/5.

**Finishes:**  
Satin Black with matt Opal for BR/5 and Penny Bronze for WE/10 models.

## WORKING WITH US *to* CUSTOMISE CHELSOM DESIGNS

—  
At Chelsom, it is our agility in design and manufacturing that allows us to work to the precise briefs put forward by the interior and lighting designers that we work with.

Whether being asked to make simple modifications to existing products or create 100% bespoke pieces, we will always offer a solution to our clients.

The following pages contain our brand new custom ceiling ranges where our initial design concepts can be tweaked and played with to create a huge variety of different looks and effects.

Each range shows a core design proposal where there is then the option to customise a number of different features such as finish, size and scale, as well as adding a number of different decorative accessories.

Each product can be specified and purchased as shown on the page using the product references provided but should you wish to customise these ranges in any way, please get in touch with our customer service team who can immediately help to create something totally unique for your project.

For each enquiry, our expert design and engineering teams will prepare tailored drawings for sign off and approval.

# Custom POD

**Features:** Perforated Brushed Brass cylinders are capped at both ends and contain beautifully diffused LED light sources. The 'Pods' can be configured as points of light at the end of chandelier arms or suspended on individual strainer wires from a ceiling plate. Various shapes and sizes of chandelier structure can be achieved as per a designer's requirement.

**Material:**  
Steel.

**Finish:**  
Satin Black with Brushed Brass for PD/8/1/00028 and PD/8/2/00028.  
Custom finishes available.

Copyright 2023 Chelsom Ltd

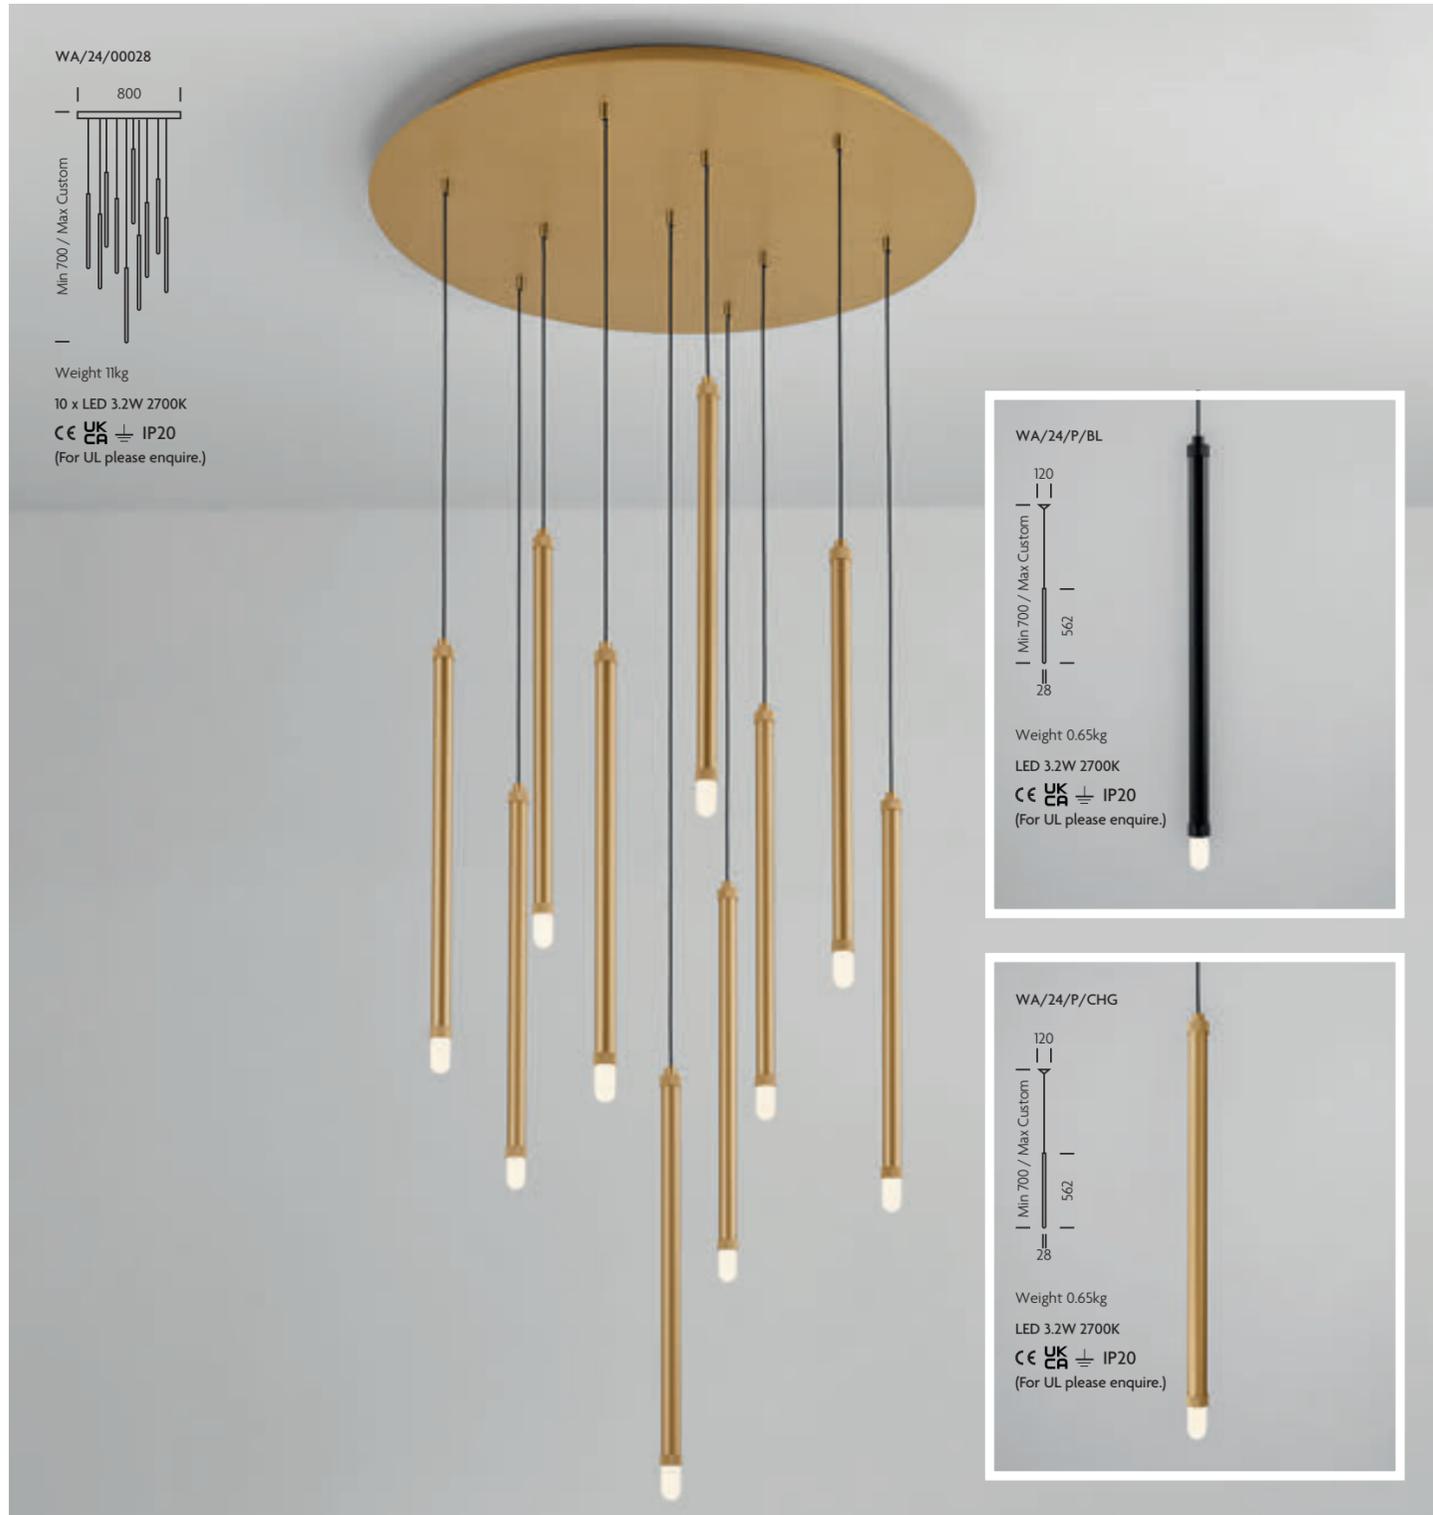

# Custom WAND

**Features:** Elegant elongated tubes suspend on cables from a ceiling plate. Each tube has a decorative knurled band at the lower and upper sections and warm LED light sources are encased within glass domed diffusers. The pendants can be ordered as individual units. Configured as groups suspended from any custom shape or size of ceiling plate, they are ideal for illuminating large spaces.

**Materials:**  
Aluminium,  
steel and glass.

**Finish:**  
Wands are available in Satin Black (BL) or Champagne Gold (CHG).  
Ceiling plates can be finished to customer specification.

# Custom ATRIUM

**Features:** Cables suspend from ceiling plates and pass through floating square section shapes from which decorative pendants hang. The central bodies can be manufactured in a variety of shapes and sizes to suit any space. Any number of decorative pendants can be specified and are to be selected from the images opposite and on page 317. AM/7/00028 IS PRICED WITH AND COMES COMPLETE WITH LAMPS AS SHOWN.

**Materials:**  
Steel with glass  
for AM/7/00028.

**Finish:**

# Custom STELLAR

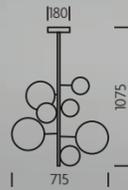

**Features:** A substantial vertical central column supports outward facing globes in random positions and sizes to create a tall and slender asymmetric chandelier system. Various shapes and sizes of chandelier structure can be achieved as per a customer's requirement. This design would be ideal within a stairwell or high atrium where there is plenty of overall ceiling height. Glasses are available in Opal only and come in three different sizes.

**Materials:**  
Steel and glass.

**Finishes:**  
Stellar Brass with matt Opal glass for ST/200/00028. Custom finishes available.

ST/200/00028 with  
4 x optional 150MM GLOBE - OPAL and  
3 x optional 250MM GLOBE - OPAL

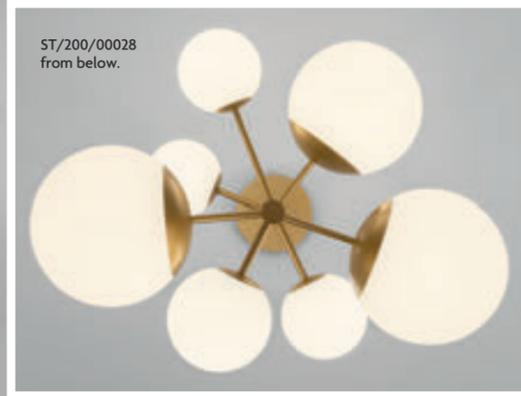

Weight 8kg

4 x E14 4.5W LED 2700K

3 x E27 7W LED 2700K

CE UK UL IP20

CUSTOM STELLAR in Satin Black with  
Brushed Brass with matt Opal glass.

Copyright 2023 Chelsom Ltd

# Custom PEAR

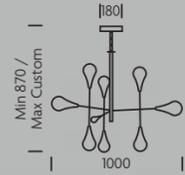

**Features:** Tiny points of LED light project a sparkling glow into sculptured crackle glass pears. The 'Pears' can be configured to create points of light at the end of chandelier arms or suspended individually from a ceiling plate. Various shapes and sizes of chandelier structure can be achieved as per a customer's requirement. Speak to our teams to explore different options.

**Materials:**  
Steel and glass.

**Finish:**  
Satin Black with Brushed Brass and Clear crackle glass for PX/14/00028. Custom finishes available.

PX/14/00028

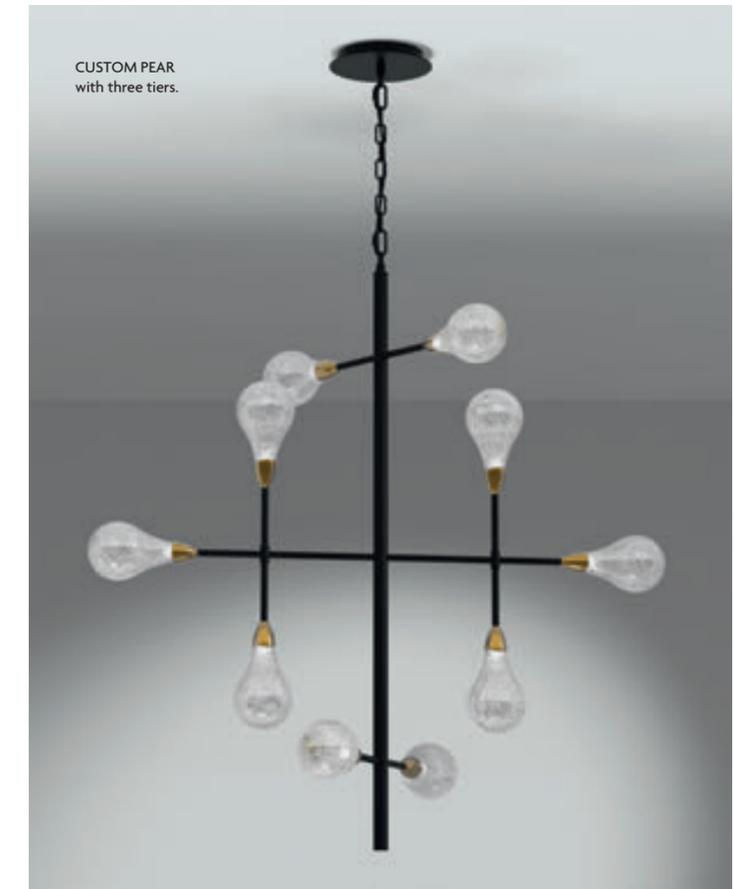

Weight 7.2kg

9 x LED 1W 2700K

CE UK IP20

(For UL please enquire.)

# Custom RINGS

**Features:** Ultra thin metal rings emit warm LED light through Opal acrylic diffusers. Rings are suspended on adjustable strainer wires with control gear housed in ceiling plate. Three standard sizes (655mm; 855mm; and 1155mm diameter) are available and can be offered in various configurations. Bespoke shapes and sizes can also be manufactured. Please contact our teams to discuss further.

**Materials:** Steel and acrylic diffusers.

**Finish:** Satin Black with Opal acrylic diffusers. Custom finishes available.

# Custom FILAMENT

**Features:** These ambient and decorative LED 3W warm white dimmable filament lamps are the main feature of the Custom Filament range. A two tier pendant and installations are shown below. Steel frames can be virtually any finish and diameter with any other shapes and sizes to clients' specification. Please contact Chelsom with your ideas and concepts.

**Material:**  
Steel.

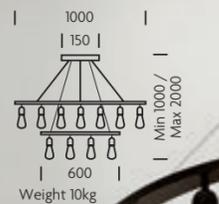

**Finish:**  
Penny Bronze for FI/41/16+8. Custom finishes available.

Project: CUSTOM FILAMENT at Castle Hotel Windsor – MGallery by Sofitel. Designer: Trevillion Interiors.

FI/41/16+8 with optional filament lamps (please enquire.)

24 x E27 3W LED 2200K  
CE UK CR UL IP20

Project: CUSTOM FILAMENT at Mercure Bristol North The Grange Hotel. Designer: Helen Hooper Interiors.

# Custom BUNCH

**Features:** Seven suspended globes hang on twisted cable from a narrow point within a ceiling plate allowing all globes to touch and come together in a cluster. Cable types and colours can be customised and metalwork can be finished to match customer specification. Please speak to our Customer Service team to discuss options.

**Materials:**  
Steel and glass.

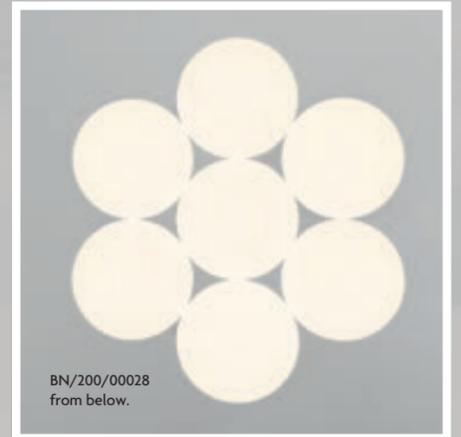

**Finishes:**  
Satin Black with Brushed Brass and matt Opal glasses.

BN/200/00028 with 7 x optional 200MM GLOBE - OPAL

# Custom DIAMOND

**Features:** A strong geometric diamond frame suspends Black chintz cylinder shades with a Gold Herringbone pattern inside to give a warm and decorative ambient glow. Alternative finishes, larger sizes, different shapes and shade options available. Please contact Chelsom with your ideas and concepts.

**Material:**  
Steel.

**Finish:**  
Satin Black for DM/87/6. Custom finishes available.

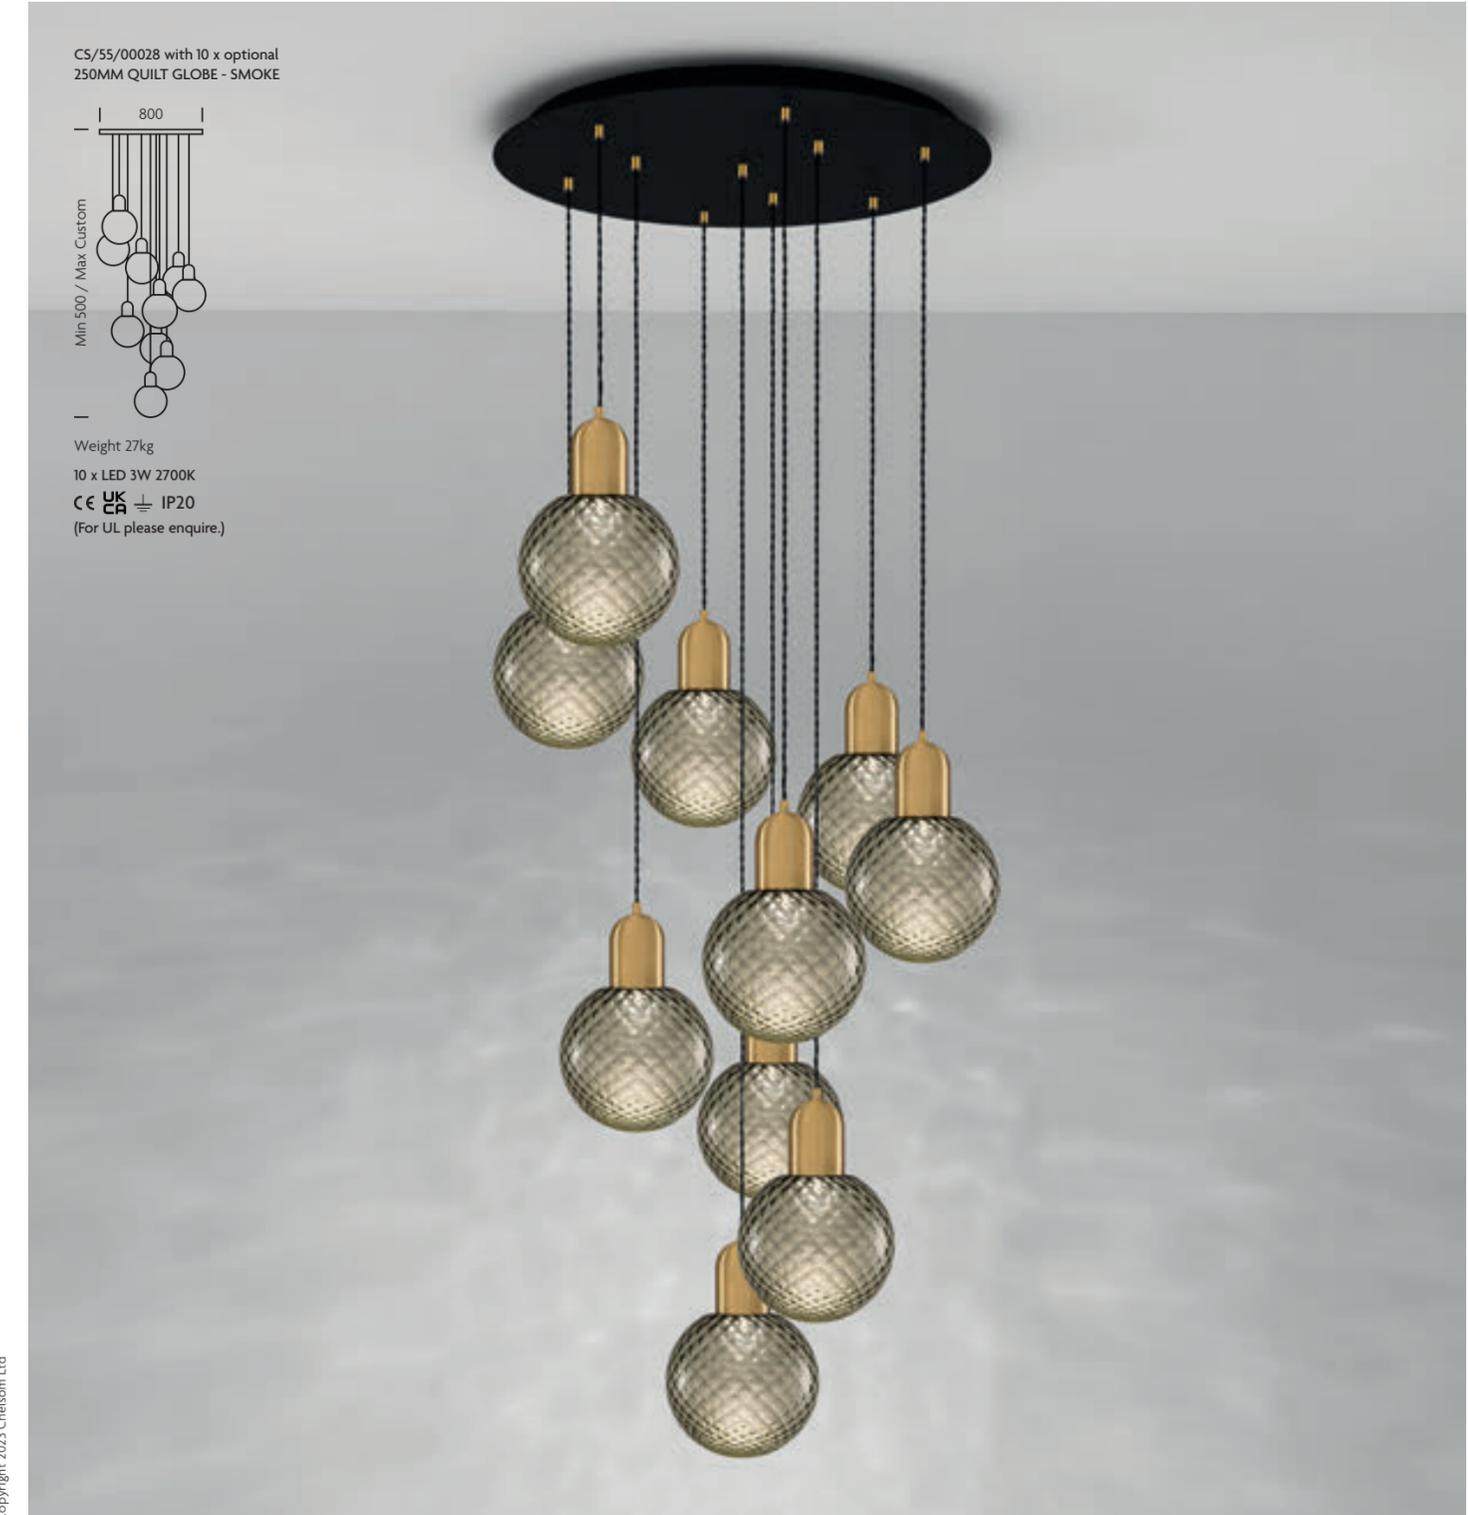

# Custom CASCADE

**Features:** Individual decorative pendants can hang in any specified formation from made to order metal ceiling plates. Ceiling plates can be any shape or size. Any number of decorative pendants can be specified and are to be selected from those pictured on page 317. Glasses come complete with metalwork as shown. Light sources vary depending on decorative pendants selected.

**Materials:**  
Steel and glass for CS/55/00028. A variety of decorative pendant options available.

**Finishes:**  
Satin Black with Brushed Brass and Smoke glass for CS/55/00028. Custom finishes available.

# Custom CASCADE

**Features:** Individual decorative pendants can hang in any specified formation from made to order metal ceiling plates which can be any shape or size. Any number of decorative pendants can be specified and are to be selected from those pictured opposite. Glasses come complete with metalwork as shown. Light sources vary depending on decorative pendants selected.

**Materials:**  
Steel with a variety of suspension options.

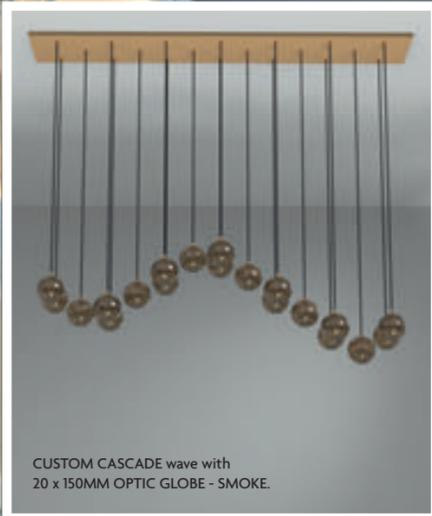

**Finishes:**  
Ceiling plates can be finished to match customer specification.

# SHADES

The shade types and sizes shown below are the standard Chelsom range with fabric options shown on the following two pages. Those shade types shown on the facing page are to special order with lead time of 6-8 weeks. Other individual or range specific shades are shown throughout the catalogue and we welcome enquiries for any special shapes, designs or fabrics.

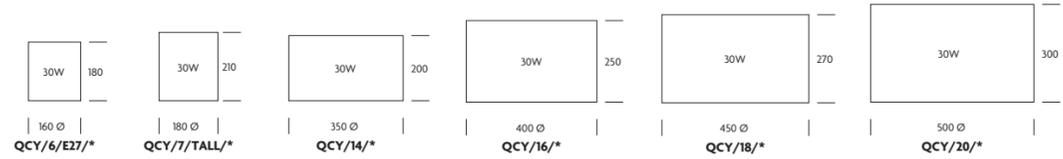

## QST – SHALLOW TAPERED with frosted acrylic top diffuser

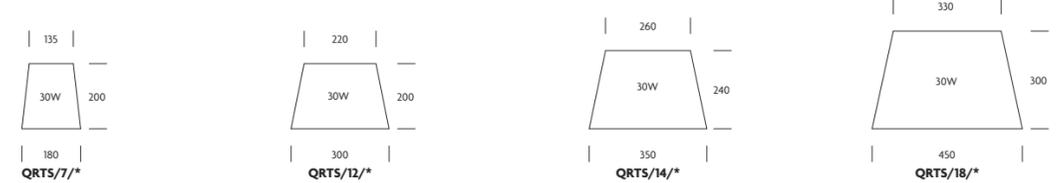

## QFD – FRENCH DRUM

## QCY – CYLINDER

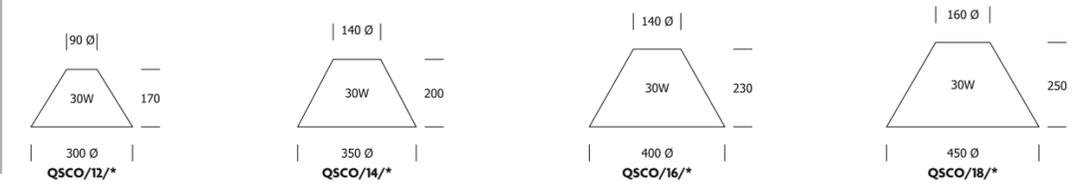

## QRTS – ROUNDED TAPERED SQUARE

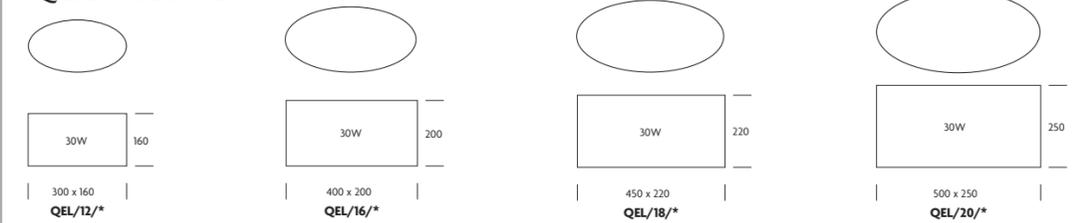

Shades are handmade with white epoxy coated three or four strut frames (gold struts when shades have gold lining) and have E27 fixed gimbal as standard. E14 or spring clip fixings are also available, denoted by model number if standard. Snap-in converter rings are available to change E27 to E14. Wipeable shade fabric is available in White or Off White. Maximum recommended lamp wattages are shown within line drawings. **\*Please add colour suffix when ordering – see overleaf.**

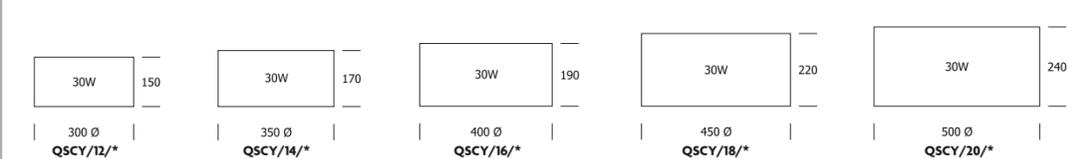

## QSCO – SHALLOW CONE

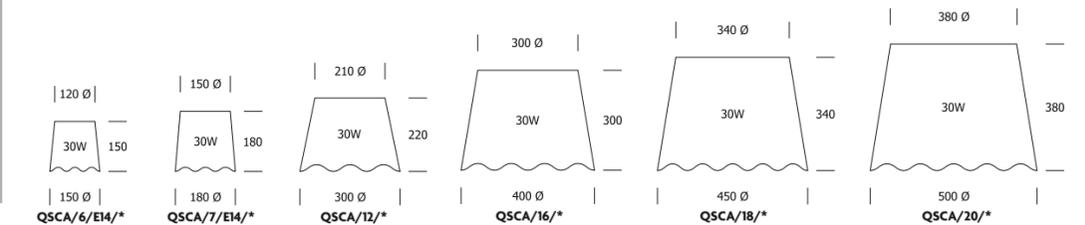

## QEL – ELLIPSE

## QSCY – SHALLOW CYLINDER

## QSCA – SCALLOPED

# EXPERTISE IN THE LATEST TECHNOLOGY FOR HOSPITALITY AND MARINE LIGHTING

## NEVER BEFORE HAS TECHNOLOGY PLAYED SUCH AN IMPORTANT ROLE IN DECORATIVE LIGHTING.

Although it is product aesthetics that drives our design ethos, we truly understand that this needs to coexist with the ever evolving technical landscape. Our fast-paced client base demands that we constantly have access to the latest technologies available so that our lighting products can better enhance an interior space. LED technology is utilised in all of our product ranges and we work hard to ensure our products can comply with sophisticated dimming and control systems.

As a fully global business, we work to all relevant international safety and compliance standards and with all of the major international regulatory bodies to ensure the highest possible standards are kept. Our highly capable in-house technical teams are fully experienced in all aspects of technical lighting.

## DIMMING AND CONTROL

Whether using retrofit lamps or integrated LED light sources, we can work closely with customers to ensure compatibility with all dimming and guest control systems. Most of our products comply with either Phase dimming or 1-10V dimming systems as standard. However, we can work in partnership with designers and electrical contractors on a huge range of specialist control protocols, such as DALI, DMX and Casambi. At our in-house laboratories we will always test products with the relevant dimming systems as part of our overall quality and technical control process.

## TESTING AND REGULATIONS

At Chelsom factories in the UK and China, continual investment means the latest manufacturing and testing equipment drives on the quality of our product. We work to UKCA, CE and UL standards but we can happily work to any international regulatory standard as required to allow access to multiple markets. We are regularly audited to ensure 100% compliance across all areas.

If you have any specific requests or queries about any aspect of technical lighting, please contact the Chelsom team on [sales@chelsom.co.uk](mailto:sales@chelsom.co.uk).

# TECHNICAL Reference

## PRODUCT TECHNICAL SPECIFICATIONS

Every product included in the Edition 28 catalogue is shown with basic dimensions and technical specification. For full technical specification details please visit the Chelsom website [www.chelsom.co.uk](http://www.chelsom.co.uk) from where Product Specification Sheets can be downloaded.

## TECHNICAL SPECIFICATION KEY

The following symbols or technical comments appear throughout Edition 28.

-  UKCA Symbol (UK Conformity Assessment)  
Denotes compliance with relevant UK electrical safety regulations.
-  CE Symbol (Conformité Européene)  
Denotes compliance with relevant European electrical safety regulations.
-  UL Symbol (Underwriters Laboratory)  
Denotes compliance with relevant USA and Canadian electrical safety regulations for lighting products.
-  Class I Symbol  
Denotes the electrical safety class of the product – earth included.
-  Class II Symbol  
Denotes the electrical safety class of the product – double insulated, not earthed.
-  Class III Symbol  
Denotes the electrical safety class of the product – protection against electric shock, supply from safety extra-low voltage (SELV).

## INTERNATIONAL ELECTRICAL STANDARDS

Chelsom can wire in-house to meet all international standards. Luminaires are constructed and tested to comply with the Electrical Equipment (Safety) Regulations 1994 with reference to BS EN 60598 – 1:2015 and with the applicable BS EN 60598 Part 2 standard. Most of the range has UL approval and almost all luminaires can be wired for 110V or 230V.

## LIGHT CALCULATIONS

The experienced Chelsom consultants together with the Technical Manager are pleased to visit site and discuss lighting schemes and light calculations with clients. Either lux level readings can be taken on site or calculations can be made at Head Office from architects' drawings and plans. Advice can be given on the location, quantity and type of light sources required.

## EMERGENCY LIGHTING

Whether emergency lighting is required within individual luminaires or is installed remotely, Chelsom are knowledgeable in all aspects of emergency lighting requirements. Please contact the Technical Team to discuss legal requirements and how those standards might be met with Chelsom lighting.

- IP20** IP20 (Ingress Protection)  
Denotes protection against solid objects greater than 12.5mm. No protection against liquids. *Touch proof.*
- IP44** IP44 (Ingress Protection)  
Denotes protection against solid objects greater than 1.0mm and protection against splashes of water from any angle. *Limited water protection.*
- IP65** IP65 (Ingress Protection)  
Denotes protection against ingress of dust and protection against low pressure water jets from any angle. *Water resistant.*
- ZONE 1** Zone 1 in Bathrooms  
The area above that defined by the perimeter of the bath or shower tray.
- ZONE 2** Zone 2 in Bathrooms  
The area adjoining the bath or shower tray up to a distance of 600mm.
- 2700K** 2700K Colour Temperature  
Denotes colour temperature measured in Kelvins (2100K to 3000K within the standard range).
-  USB Symbol  
Denotes product which comes with integral USB charging port with 2.0A output.

## CABLE AND PLUGS

Cable colour will be selected to complement the finish of the luminaire. Portable luminaires will normally have 2 metres cable length from the base to a 13 amp UK plug (fused 3 amp). 5 amp plugs and many international plugs are available.

## PENDANT LUMINAIRES

Pendants are normally supplied with 2000mm of suspension chain or cable and all have ceiling plates. Refer to the website for full technical specifications and installation instructions. To facilitate maintenance of larger pendants in high-ceilinged rooms, we can advise upon and arrange installation of manual or power winches.

## DIMENSIONS AND WEIGHTS

Dimensions are usually rounded to the nearest 10mm, 5mm for smaller products. Minimum heights shown for pendants include one link of chain, where applicable, and the ceiling plate. Maximum heights include the above plus the normal amount of chain supplied (extra lengths available on request). Weights for pendants are shown and include glass where illustrated. Portable luminaire base only heights are measured including lampholder cover and heights with shade relate to the shade illustrated. Projection is the maximum distance any part of a wall light extends from the wall including shade if shown.

## TRADE ASSOCIATION MEMBERSHIPS
